**Love Or Greatness (Routledge Revivals)** Roslyn Wallach Bologh, 2009-12-15. This work first published in 1990 reissues the first thorough examination of the essentially masculine nature of Max Weber's social and political thinking. Through a detailed examination of his central texts, the author demonstrates Weber's masculine reading of social life and shows how his work advocates a masculine form of life that poses a challenge to contemporary women and to feminism. In particular, she addresses the patriarchal implications of Weber's belief in the need to relegate the ethic of brotherly love to a private sphere in order to make possible rational action and the achievement of greatness in the public sphere.

**The Highest Level of Enlightenment** David R. Hawkins, MD/PHD, 2024-02-06. In this profound book based on a popular audio program, Dr. David Hawkins gives a primer on his world-famous map of consciousness that will help the reader embark on their own journey to an advanced state of consciousness. Dr. Hawkins's research is based on a well-established science called kinesiology, which has to do with the testing of an all-or-none muscle response stimulus. A positive stimulus generates a strong muscle response, and a negative stimulus results in a demonstrable weakening of the test muscle. Clinical kinesiological muscle testing as a diagnostic technique has been verified widely over the past 25 years. David Hawkins, M.D., Ph.D., conducted a 29-year study that demonstrated that the human body becomes stronger or weaker depending on a person's mental state. He created a scale from 1 to 1,000 that mapped human consciousness. Furthermore, he demonstrated that this map can be used as a blueprint to reach higher states of consciousness that can be identified simply by applying a small amount of pressure on an outstretched arm. Not only that, but this simple method has also been demonstrated to be an effective tool for instantly calibrating human consciousness. Dr. Hawkins created a scale of consciousness based on current discoveries in advanced theoretical physics and the nonlinear dynamics of chaos theory. And this map of consciousness now makes it possible for anyone to advance toward higher levels of enlightenment faster than ever imagined. In this book, you will learn how to advance your level of consciousness.
