Surrogate Motherhood The Legal And Human Issues Expanded Edition:

Surrogate Motherhood Martha A. Field, 1988-11-15 Discusses the law psychology and social sciences aspects of surrogate motherhood and includes compelling human stories with discussions *Surrogate Motherhood* Martha A. Field, 2009-07-01 With an Expanded Appendix on the Current Legal Status of Surrogacy Arrangements A practice known since Biblical times surrogate motherhood has only recently leaped to prominence as a way of providing babies for childless couples and leaped to notoriety through the dramatic case of Baby M Contract surrogacy is officially little more than ten years old but by 1986 five hundred babies had been born to mothers who gave them up to sperm donor fathers for a fee and the practice is growing rapidly Martha Field examines the myriad legal complexities that today enmesh surrogate motherhood and also looks beyond existing legal rules to ask what society wants from surrogacy A man's desire to be a biological parent even when his wife is infertile the father's wife usually adopts the child has led to this new kind of family and modern technology could further extend surrogacy's appeal by making gestational surrogates available to couples who provide both egg and sperm But is surrogacy a form of babyselling Is the practice a private matter covered by contract law or does adoption law govern Is it good or bad social and public policy to leave surrogacy unregulated Should the law allow encourage discourage or prohibit surrogate motherhood Ultimately the answers will depend on what the American public wants In the difficult process of sorting out such vexing questions Martha Field has written a landmark book Showing that the problem is rather too much applicable law than too little she discusses contract law and constitutional law custody and adoption law and the rights of biological fathers as well as the laws governing sperm donation Competing values are involved all along the legal and social spectrum Field suggests that a federal prohibition would be most effective if banning surrogacy is the aim but federal prohibition might not be chosen for a variety of reasons a preference for regulating surrogacy instead of driving it underground a preference for allowing regulation and variation by state or a respect for the interests of people who want to enter surrogacy arrangements Since the law can support a wide variety of positions Field offers one that seems best to reconcile the competing values at stake Whether or not paid surrogacy is made illegal she suggests that a surrogate mother retain the option of abiding by or canceling the contract up to the time she freely gives the child to the adopting couple And if she cancels the contract she should be entitled to custody without having to prove in court that she would be a better parent than the father

Motherhood in Contemporary International Perspective Fabienne Portier-Le Cocq, 2019-08-30 Divided into 15 chapters this book provides the reader with an insight into certain representations of mothers and motherhood in history and today's societies in some areas of the world notably in Britain and Asia Key facts about the history of motherhood are presented together with the use of very recent notions and phrases portraying good and bad mothers An analysis of the concepts of naming and blaming along with regret with respect to mothers in 21st century societies provides food for thought Other issues addressed are varied and numerous the politics of early intervention feminist

critique mothers with disabilities and mothers of disabled children incarcerated mothers surrogate mothers teenage mothers lesbian mothers and mothering in Eastern Asia namely in China Japan and Korea Interestingly both visual arts and literature play a crucial role in this analysis The publication will appeal to students academics researchers and the general public interested in and seeking to comprehend the shifts that have occurred over time in connection with the vast and inexhaustible subject of motherhood and mothers a private and public matter Readers are also provided with a rich reference section dealing with the latest publications on the issues tackled by prominent academics and researchers in human geography women s studies sociology gender studies contemporary history and the arts

The Empty Cradle Margaret S. Marsh, Wanda Ronner, 1996 So called ovarian transplantations performed in the early twentieth century foreshadowed the modern practice of egg donation and the first experiments in human in vitro fertilization date back to the 1930s Marsh and Ronner also tell the little known story of free and low cost clinics in the urban North where low income women were treated for infertility beginning in the nineteenth century

Parenthood in Modern Society John Eekelaar, Petar Šarcevic, 2023-12-04 The rights

and obligations of parenthood are central to most people's lives. Yet their form and substance are caught up in the great demographic, social and economic changes of the late twentieth century. In this book, specialists from 22 countries examine fundamental issues confronting parenthood: these include social and biological conceptions of parenthood, the legal and moral obligations of parenthood, the legal and scientific establishment of parentage, rights to parenthood, including inter-country adoption, the effects on parent-child relationships of family change, the role of the state in family life, the position of minorities and children's rights. They are viewed within a global context and integrated in a commentary which looks forward to the future evolution of the law.

Fundamental legal problems of surrogate motherhood. Global perspective. Piotr Mostowik, Marta Soniewicka, Nathalie Baillon-Wirtz, Mirosław Boruta, Justyna Holocher, Błażej Kmiecik, Ewa Kozerska, Tomasz Scheffler, Katažyna Mikša, Natalja Žitkevits, Avishalom Westreich, Andrea Nicolussi, Andrei A. Novikov, Carlos Martínez de Aguirre, Monika Wałachowska, Alla Anatoliivna Herts, Witold Borysiak, Agnieszka Czubik, Łukasz Mirocha, Agata Niżnik-Mucha, Aleksandra Dębowska, Marcin Sokołowski, Agnieszka Wedeł-Domaradzka, Olga Bobrzyńska, Dita Frintová, Ondřej Frinta, Janusz Gajda, Rafał Łukasiewicz, Elena Júdová, Martin Píry, Wojciech Lis, Piotr Telusiewicz, Michał Wojewoda, Edyta Figura-Góralczyk, Radosław Flejszar, Piotr Rodziewicz, Konrad Burdziak, Łukasz Pohl, Wojciech Górowski, Agnieszka Laber, Dominik Zajac, Karolina Sęk, 2019-07-01.

The observation that *mater semper certa est* remains accurate under most legal systems in the world. Maternity is defined as the personal status of a woman who gave birth to a child. It is typically complemented by the fatherhood of the man from whom the child biologically originates, often *quem nuptiae demonstrant*. However, in some states, a kind of competitive way of acquiring the legal status of mother and father or homosexual parents A and B has been introduced via concluding a contract with a surrogate mother. Usually with a woman coming from poorer societies and with the assistance of professional intermediaries and organizers. The postulates to change substantive family law or at least to recognize the effects of foreign law and procedures, a kind of procreative tourism, appear nowadays also in states generally prohibiting surrogate motherhood. The issues discussed in this volume concern both national law and international court cases. Recent examples include the opinion of the European Court of Human Rights of 10 April 2019 initiated by the French Cour de cassation, the judgement of the German Bundesgerichtshof of 20 March 2019 and dilemmas of Polish administrative courts. Focusing on the international perspective, the present volume as well as an accompanying book in Polish are the results of the international cooperation of over 30 experts from both member states and observer states of the Council of Europe. The monograph is structured from the general to the detail and includes a comprehensive view as well from the issues of philosophy and sociology of law to human rights, standards of national constitutions and international agreements to principles of *ordre public* of forum and their protection with measures of private, public and penal law. This allows readers, including legislators and judges, a better understanding of the

fundamental legal problems that surrogate motherhood brings both in states where law creates them in a narrower or wider extent and in other countries of the world to which these problems can be imported with the movement of people and with de lege lata and de lege ferenda postulates

Legal Thoughts between the East and the West in the Multilevel Legal Order Chang-fa Lo, Nigel N.T. Li, Tsai-yu Lin, 2016-11-11 This book focuses on the interaction and mutual influences between the East and the West in terms of their legal systems and practices In this regard it highlights Professor Herbert H P Ma's achievements and his efforts to bring Eastern and Western legal concepts and systems closer together The book shows that while there have been convergences between different legal regimes in many fields of law diverse legal practices and approaches rooted in differing cultural social political and philosophical backgrounds do remain and that these differences are not necessarily negative elements in the contemporary legal order By examining different levels of the legal order including domestic regional and multilateral it goes on to argue that identifying these diversities and addressing the interactions and mutual influences between different regimes is a worthwhile undertaking not only in terms of mutual enrichment but also with regard to intensifying the degree of desirable coordination between different legal systems All chapters were written by leading experts practitioners and scholars from different jurisdictions with expertise in various fields of law and different levels of the legal order and discuss a number of issues with particular focus on either one way or mutual influences between the Eastern and the Western legal systems practices and philosophies

Labor of Love Heather Jacobson, 2016-03-15 While the practice of surrogacy has existed for millennia new fertility technologies have allowed women to act as gestational surrogates carrying children that are not genetically their own While some women volunteer to act as gestational surrogates for friends or family members others get paid for performing this service The first ethnographic study of gestational surrogacy in the United States *Labor of Love* examines the conflicted attitudes that emerge when the ostensibly priceless act of bringing a child into the world becomes a paid occupation Heather Jacobson interviews not only surrogate mothers but also their family members the intended parents who employ surrogates and the various professionals who work to facilitate the process Seeking to understand how gestational surrogates perceive their vocation she discovers that many regard surrogacy as a calling but are reluctant to describe it as a job In the process Jacobson dissects the complex set of social attitudes underlying this resistance toward conceiving of pregnancy as a form of employment Through her extensive field research Jacobson gives readers a firsthand look at the many challenges faced by gestational surrogates who deal with complicated medical procedures delicate work family balances and tricky social dynamics Yet *Labor of Love* also demonstrates the extent to which advances in reproductive technology are
