Implications of the Uruguay Round Agreement for South Asia Benoit Blarel, Garry Pursell, Alberto Valdés, 1999 **Civil Service Reform in Francophone Africa** 'Ladipo Adamolekun, Guy de Lusignan, Armand Atomate, 1997-01-01 The world's financial markets are rapidly integrating into a single global marketplace and developing countries are being drawn into this process starting from different points and moving at various speeds Those with adequate institutions and sound policies in place may proceed smoothly along the road toward financial integration and gain the many benefits that integration can bring Most of the developing economies lack many of the necessary prerequisites for such a move a few are so unprepared that integration may do them more harm than good Developing countries may have little choice about whether to follow this path advances in communications and new developments in finance have made the course inevitable but they may still choose the ways in which they proceed choosing the policies that benefit the economy and averting potential shocks This World Bank report looks at the important challenges both sets of countries face in a new age of global capital The book presents new and compelling evidence that while low interest rates in industrial countries provided an initial impetus to the surge in private capital flows during 1989-93 these flows have entered a new phase driven by increased financial integration The report analyzes the causes and effects of integration with a particular emphasis on how developing countries in the nascent stages of integration can learn from the experiences of the more rapidly integrating developing countries A *Planner's Guide for Selecting Clean-coal Technologies for Power Plants* Karin Oskarsson, 1997-01-01 World Bank Discussion Paper No 373 This discussion paper constructs a consistent nationwide poverty profile of Cambodia to support the government's effort to strengthen the design of poverty reduction policies Basic data are given on the level and distribution of living standards as measured by per capita household consumption expenditures The authors use the Socioeconomic Survey of Cambodia SESC of 1993-94 to estimate poverty measures and make poverty comparisons for Cambodia *Catching Up to Leadership* Sakura Kojima, Yoshitaka Okada, 1997-01-01 World Bank Discussion Paper No 376 Though Vietnam has made impressive progress in providing widespread access to basic social services the quantity and quality of the country's social service provision have shown signs of deterioration within the last two decades This paper examines the changing role of the public sector in financing and providing social services and safety nets in Vietnam and assesses the country's efficiency in targeting public resources to the poor in the wake of the important economic policy reforms initiated in 1989 The author analyzes the sources and uses of funds for education health and social transfers and highlights the emerging importance of public sector pricing policy and private out of pocket expenditures in social sector financing Trends in Health Status, Services, and Finance: Statistical annex Ellen Goldstein, 1996-01-01 Education systems in more than 50 countries most of them in the industrial world have in recent years shown an interest in obtaining information on what their students have actually learned as a result of their educational experiences This interest has been manifested either by developing national

procedures to assess students achievements or by participating in international studies of student achievement This book provides introductory information on ways of assessing the learning outcomes of education systems It considers the nature choice and use of indicators and describes numerous approaches to assessing learning outcomes in selected industrial countries the United States and the United Kingdom and developing countries Chile Colombia Mauritius Namibia and Thailand The authors also review systems of comparative international assessment and debate whether developing countries should participate in them The book contains boxes and tables an appendix features a national assessment checklist **New**

Evaluation Procedures for a New Generation of Water-related Projects Ronald G. Cummings,Ariel Dinar,Douglas Olson,1996-01-01 This groundbreaking study presents the results of a large survey of more than 400 industrial firms in Russia conducted by the World Bank in mid 1994 The survey examined the role and organization of the enterprise sector which is a key issue in transition economies particularly in Russia where a concerted attempt has been made to change ownership arrangements and hence corporate governance More than half the firms surveyed are in the private sector the rest remain in state hands or are partially privatized A major focus of the book is to understand whether the Russian privatization has led to improvements in corporate governance The authors identify some initial positive changes but also find that the manner in which privatization has occurred has not yet had a strong effect on the internal operations of Russian industrial firms However they do find evidence from their sample of significant growth in new firms The volume examines the positive and negative aspects of restructuring employment and workers compensation issues budget constraints the effects of privatization on employee behavior and future prospects for Russian firms Poverty and Income Distribution in Latin
