**Michelle Holder, Alan A. Aja**

## **Survey Of Afro American Experience In The Us Economy:**

Survey of Afro-American Experience in the U.S. Economy Martin Ohaeri Ijere,1978-01-01      **Afro-Latinos in the U.S. Economy** Michelle Holder,Alan A. Aja,2021-05-18 Afro Latinos in the U S Economy outlines the current position and status of Afro Latinxs in the economy of the United States Very little research has thus far been disseminated in the field of economics on the contributions of Afro Latinxs regarding income and wealth labor market status occupational mobility and educational attainment On the other hand cultural studies literary criticism and social science fields have produced more research on Afro Latinxs the discipline of economics is thus significantly behind the curve in exploring the economic dimensions of this group While the Afro Latinx community constitutes a comparatively small segment of the U S population and is often viewed as the nexus between two of the country s largest minority groups African Americans and Latinxs who comprise 13 percent and 17 percent respectively of the U S population Holder and Aja outline how the group s unique economic position is different than non black Latinxs Despite possessing higher levels of education relative to the Latinx community as a whole U S Afro Latinxs do not experience expected returns in income and earnings underscoring the role anti Blackness plays in everyday life regardless of ancestral origin The goal of this book is to provide a foundation in the economic dimensions of Afro Latinxs in the U S which can be used to both complement and supplement research conducted on this group in other major disciplines      *Racism in the United States* Meyer Weinberg,1990-05-21 This volume represents the most comprehensive book length bibliography on the subject of racism available in the United States Compiler Meyer Weinberg has surveyed a wide ranging group of material and classified it under 87 subject headings drawing on articles books congressional hearings and reports theses and dissertations research reports and investigative journalism Historical references cover the long history of racism while the heightened awareness and activity of the recent past is also addressed in detail In addition to works that fit the narrow definition of racism as a mode of oppression or group denial of rights based on color Weinberg includes references dealing with sexism antisemitism economic exploitation and similar forms of dehumanization References are grouped under a series of subject headings that include Civil Rights Desegregation Housing Socialism and Racism Unemployment and Violence against Minorities Items which do not have self explanatory titles are annotated and virtually every section is thoroughly cross referenced Also included is one section of carefully selected references on racism in countries other than the United States Unlike the remainder of the book this section is not comprehensive but rather provides an opportunity to view racism comparatively The volume concludes with an author index This work will be a significant addition to both academic and public libraries as well as an important resource for courses in racism sociology and black history      **Labor Literature** ,1979      **Desegregating the Dollar** Robert E. Weems,1998-02-01 Capitalism and slavery stand as the two economic phenomena that have most clearly defined the United States Yet despite African Americans nearly 500 billion annual spending power surprisingly little attention has been devoted to the ways U S

businesses have courted black dollars in post slavery America Robert E Weems Jr presents the first fully integrated history of black consumerism over the course of the last century The World War I era Great Migration of African Americans from the rural South to northern and southern cities stimulated initial corporate interest in blacks as consumers A generation later as black urbanization intensified during World War II and its aftermath the notion of a distinct profitable African American consumer market gained greater currency Moreover black socioeconomic gains resulting from the Civil Rights movement which itself featured such consumer justice protests as the Montgomery Bus Boycott further enhanced the status and influence of African American shoppers Unwilling to settle for facile answers Weems explores the role of black entrepreneurs who promoted the importance of the African American consumer market to U S corporations Their actions ironically set the stage for the ongoing destruction of black owned business While the extent of educational employment and residential desegregation remains debatable African American consumer dollars have by any standard been fully incorporated into the U S economy Desegregating the Dollar takes us through the blaxploitation film industry the vast market for black personal care products and the insidious exploitation of black urban misery by liquor and cigarette advertisers Robert E Weems Jr has given us the definitive account of the complicated relationship between African Americans capitalism and consumerism

*Labor Literature* United States. Department of Labor. Library,1979      **African Immigrants and the American Experience** Imali J. Abala,Wanjala S. Nasong'o,Kefa M. Otiso,2023-07-25 The population of African immigrants in the United States has grown rapidly over the past few decades African Immigrants and the American Experience Race Anti Black Violence and the Quest for the American Dream by Wanjala S Nasong o Imali J Abala and Kefa M Otiso explores contemporary sub Saharan African immigrants experiences with issues of race ethnicity and systemic violence in the United States Each contributor within this volume dissects how these issues have impacted and in many cases snuffed out the immigrants quest for the fabled American dream Divided into three sections each chapter focuses on these main themes race and anti black violence educational attainment among African immigrants in pursuit of the American dream and African immigrant s socioeconomics health and well being Through research and first hand accounts the contributors provide perspectives of what it truly means to be a sub Saharan African immigrant in the United States      Black Families and Recession in the United States Dorothy Smith-Ruiz,Albert M. Kopak,2021-03-30 Black Families and the Recession in the United States goes beyond the massive loss of property among African Americans during the Great Recession of 2007 2009 It connects the housing experience to broader systems of inequality in America Following the Great Recession of 2007 2009 the US elections of 2008 the impact of COVID 19 and widespread demonstrations resulting from the murder of George Floyd by police the sociopolitical and economic status of Blacks in the United States is at a critical point in history with demand for major transformation The authors reveal a history of racist practices against Blacks in many systems including education policing incarceration wealth transmission voting restrictions and housing segregation The social costs of the recession are

manifested in the daily lives of African American families In addition to financial losses African Americans are more likely to be plagued with issues related to poverty chronic illnesses and lack of trust of social and economic institutions Research policy and practical implications of this research include identifying social and economic supports unique to African Americans and determining strategies to strengthen families paramount to addressing racial disparities The interdisciplinary focus of this book appeals to a wide audience and areas of study
