Black Feminist Thought, 30th Anniversary Edition Patricia Hill Collins, 2022-05-16. In the first major update to this classic book in many years, Collins traces the history and contours of Black women's ideas and actions to argue that Black feminist thought is the discourse that fosters Black women's survival, persistence, and success against the odds. Through meticulous research that synthesizes the important intellectual work done by Black women, Collins's timely update demonstrates that Black women's ideas and actions are not marginal concerns but rather are central to the future of social justice within democratic societies. The combination of the text's classic arguments and a preface and epilogue written expressly for this edition speak to people who have long been working on social justice and to a new generation of readers who are encountering the ideas and actions of Black women for the first time. For this 30th-year anniversary edition, Patricia Hill Collins examines how the ideas in this classic text speak to contemporary social issues and identifies the directions needed for the future of Black feminist thought.

The Socialization of the African American Child Sekou Clincy, 2010-08. Today we have occurrences that are unprecedented in the history of America: a vast divide between the rich and poor, irreversible environmental damage, over half of African American children living in single-parent households, and high incarceration rates among African American young people. When oppressed folk are driven into desperate channels, criminal activity is likely to follow. Thus, it is imperative to take a good look at what Black people are doing and not doing as parents or immediate caregivers, which ultimately will determine the future of the Black race. It is equally imperative to study the past. Indeed, when a people don't know who they are, their history, they perish. This fact should motivate us to move in unparalleled directions toward survival.

African American Authors, 1745-1945 Emmanuel S. Nelson, 2000-01-30 There has been a dramatic resurgence of interest in early African American writing Since the accidental rediscovery and republication of Harriet Wilson s *Our Nig* in 1983 the works of dozens of 19th and early 20th century black writers have been recovered and reprinted There is now a significant revival of interest in the Harlem Renaissance of the 1920s and in the last decade alone several major assessments of 18th and 19th century African American literature have been published Early African American literature builds on a

strong oral tradition of songs folktales and sermons Slave narratives began to appear during the late 18th and early 19th century and later writers began to engage a variety of themes in diverse genres A central objective of this reference book is to provide a wide ranging introduction to the first 200 years of African American literature Included are alphabetically arranged entries for 78 black writers active between 1745 and 1945 Among these writers are essayists novelists short story writers poets playwrights and autobiographers Each entry is written by an expert contributor and provides a biography a discussion of major works and themes an overview of the author s critical reception and primary and secondary bibliographies The volume concludes with a selected general bibliography
