Survival Stories Memoirs Of Crisis:

Survival Stories Kathryn Rhett, 1997 Memoirs of crisis of depression alienation divorce illness death have recently become tremendously popular among both readers and critics alike When poet Kathryn Rhett experienced her own crisis she found comfort in others stories of adversity and related to their survival tales A teacher at the Iowa Summer Writing Festival Rhea taught a course in memoir She soon came to realize that many memoirs are actually stories of survival and so her new course survival stories was born Survival Stories is an outgrowth of this workshop A collection of memoirs of crisis Survival Stories speaks to our need to write and read about life changing experiences Here twenty writers including Lucy Grealy Rick Moody Reynolds Price and William Styron reveal the variety and power of crisis memoir Whether it be Lauren Slater talking about obsessive compulsive disorder Christopher Davis coping with his brother's murder or Christina Middlebrook reliving her bone marrow transplant each of these essays speaks to a fundamental human need to come to terms with difficulty and loss The writers and readers of crisis memoirs are survivors the ones left to tell the story the ones left to live The experience of crisis is universal it is the moment of decision or upheaval that profoundly changes the course of a life Survival Stories is a celebration of memoir as an art form and the human instinct to survive and adapt to adversity Shattered Past Konrad H. Jarausch, Michael Geyer, 2009-03-24 Broken glass twisted beams piles of debris these are the early memories of the children who grew up amidst the ruins of the Third Reich More than five decades later German youth inhabit manicured suburbs and stroll along prosperous pedestrian malls Shattered Past is a bold reconsideration of the perplexing pattern of Germany's twentieth century history Konrad Jarausch and Michael Geyer explore the staggering gap between the country's role in the terrors of war and its subsequent success as a democracy They argue that the collapse of Communism national reunification and the postmodern shift call for a new reading of the country's turbulent development one that no longer suggests continuity but rupture and conflict Comprising original essays the book begins by reexamining the nationalist socialist and liberal master narratives that have dominated the presentation of German history but are now losing their hold Treated next are major issues of recent debate that suggest how new kinds of German history might be written annihilationist warfare complicity with dictatorship the taming of power the impact of migration the struggle over national identity redefinitions of womanhood and the development of consumption as well as popular culture The concluding chapters reflect on the country's gradual transition from chaos to civility This penetrating study will spark a fresh debate about the meaning of the German past during the last century There is no single master narrative no Weltgeist to be discovered But there is a fascinating story to be told in many different ways *Braving the Fire* Jessica Handler, 2013-12-10 Braving the Fire is the first book to provide a road map for the journey of writing honestly about mourning grief and loss Created specifically by and for the writer who has experienced illness loss or the death of a loved one Braving the Fire takes the writer's perspective in exploring the challenges and rewards for the writer who has chosen with courage and candor to be the memory keeper It will be useful
