Survive the Peace Cyprian Ekwensi, 1976 *The Covenant of Peace* Henry Noel Brailsford, 1919 **Hearing on Mental Health Issues** United States. Congress. Senate. Committee on Veterans' Affairs, 2007 *Peace and Survival* David Gress, 1985 **Korea's Future and the Great Powers** Nicholas Eberstadt, Richard J. Ellings, 2012-03-15 The eventual reunification of the Korean Peninsula will send political and economic reverberations throughout Northeast Asia and will catalyze the struggle over a new regional order among the four great powers of the Pacific Russia China Japan and the United States Korea's Future and the Great Powers addresses the vital issues of how to achieve a stable political order in a unified Korea how to finance Korean economic reconstruction and how to link Korea into a cooperative framework of international diplomatic relations Natural Conduct Edwin Bingham Copeland, 1928 **Violence and Post-war Reconstruction** Christina Steenkamp, 2009-05-30 The uncomfortable truth about peace accords is that often they do not bring about a real and lasting peace while the conflict is officially over civilians still live with the daily threat of violence It is generally assumed that this does not pose a threat to the peace process yet the author shows how in reality violence that occurs at this time and within this context has a unique potential to cause damage In this much needed and pioneering study the author shows the impact of continuing physical insecurity upon the postwar reconstruction process Examining the type of violence when it occurs and the identity of those who commit it she reveals the serious implications for the reconstruction of state polity and society and for the quality of peace that emerges She shows how the use of violence to address everyday problems becomes increasingly acceptable explores the use of violence by organized groups in society and pays particular attention to civilian reactions to post accord insecurity In a final chapter she identifies a range of important considerations for the better understanding of a vital yet often neglected aspect of postwar reconstruction **The Guatemala Peace Agreements** Guatemala, Unidad Revolucionaria Nacional Guatemalteca, 1998 Thirty six years of internal conflict came to an end on 29 December 1996 when the Government of Guatemala and the Unidad Revolucionaria Nacional Guatemalteca URNG dsigned the Agreement culminated a six year negotiating process under the auspices of the United Nations and brought into effect a number of previous agreements social economic agrarian cultural and ethnic issues Peace Formation and Political Order in Conflict Affected Societies Oliver P. Richmond, 2016-02-23 As Oliver Richmond explains there is a level to peacemaking that operates in the realm of dialogue declarations symbols and rituals But after all this pomp and circumstance is where the reality of security development politics economics identity and culture figure in conflict cooperation and reconciliation are at their most vivid at the local scale Thus local peace operations are crucial to maintaining order on the ground even in the most violent contexts However as Richmond argues such local capacity to build peace from the inside is generally left unrecognized and it has been largely ignored in the policy and scholarly literature on peacebuilding In *Peace and Political Order* Richmond looks at peace processes as they scale up from local to transnational efforts to consider how to

build a lasting and productive peace He takes a comparative and expansive look at peace efforts in conflict situations in countries around the world to consider what local voices might suggest about the inadequacy of peace processes engineered at the international level As well he explores how local workers act to modify or resist peace processes headed by international NGOs and to what degree local actors have enjoyed success in the peace process and how they have affected the international peace process

Why do we preserve certain landscapes while developing others without restraint Drew A Swanson s in depth look at Wormsloe plantation located on the salt marshes outside of Savannah Georgia explores that question while revealing the broad historical forces that have shaped the lowcountry South Wormsloe is one of the most historic and ecologically significant stretches of the Georgia coast It has remained in the hands of one family from 1736 when Georgia s Trustees granted it to Noble Jones through the 1970s when much of Wormsloe was ceded to Georgia for the creation of a state historic site It has served as a guard post against aggression from Spanish Florida a node in an emerging cotton economy connected to far flung places like Lancashire and India a retreat for pleasure and leisure and a carefully maintained historic site and green space Like many lowcountry places Wormsloe is inextricably tied to regional national and global environments and is the product of transatlantic exchanges Swanson argues that while visitors to Wormsloe value what they perceive to be an authentic undisturbed place this landscape is actually the product of aggressive management over generations He also finds that Wormsloe is an ideal place to get at hidden stories such as African American environmental and agricultural knowledge conceptions of health and disease the relationship between manual labor and views of nature and the ties between historic preservation and natural resource conservation Remaking Wormsloe Plantation connects this distinct Georgia place to the broader world adding depth and nuance to the understanding of our own conceptions of nature and history

Mediation and negotiation personal transformation non violent struggle in the community and the world these behaviors and their underlying values underpin the United Nations definition of a culture of peace and are crucial to the creation of such a culture The Handbook on Building Cultures of Peace addresses this complex and daunting task by presenting an accessible blueprint for this development Its perspectives are international and interdisciplinary involving the developing as well as the developed world with illustrations of states and citizens using peace based values to create progress on the individual community national and global levels The result is both realistic and visionary a prescription for a secure future
