52, 2014-04-29. Within myself, I empathize with the main character, who I share some similarities with, however, in other factors, we are worlds apart. Yet still, I felt the plight of his anguish. This is a prolific story of an African American boy/man growing up in the Southern States, whom not only overcame a number of adversities in his life but survived to tell his tale. Some of his trials and tribulations were self-inflicted, but a large percentage, as you will see, was out of his definitive control. Yet throughout all his ordeals, in one way or another, he fought the fight to persevere, not always in the moral or ethical manner, at times more frequently than most, succumbing to human weaknesses. Forced into the onslaught of Katrina, which he could have so easily avoided, if not for sheer stubbornness and escaping certain situations by a trifling margin of good fortune. Obviously, if he could go back and change some of his indiscretions in a heartbeat, he would, but regrettably, none of us get a second chance. At the end of it all, he can only hope to emerge with a degree of dignity, able to face his accusers head held high, without humiliation and indignity. Generation Vet Sue Doe, Lisa Lanstraat, 2014-04-15. Institutions of higher education are experiencing the largest influx of enrolled veterans since World War II, and these student veterans are transforming post-secondary classroom dynamics. While many campus divisions, like admissions and student services, are actively moving to accommodate the rise in this demographic, little research about this population and their educational needs is available, and academic departments have been slower to adjust. In *Generation Vet*, fifteen chapters offer well-researched, pedagogically savvy recommendations for curricular and programmatic responses to student veterans for English and writing studies departments. In work with veterans in writing-intensive courses and community contexts, questions of citizenship, disability, activism, community, campus relationships, and retention come to the fore. Moreover, writing-intensive courses can be sites of significant cultural exchanges, even clashes, as veterans bring military values, rhetorical traditions, and communication styles that may challenge the values, beliefs, and assumptions of traditional college students and faculty. This classroom-oriented text addresses a wide range of issues concerning veterans' pedagogy, rhetoric, and writing program administration. Written by

diverse scholar teachers and written in diverse genres the essays in this collection promise to enhance our understanding of student veterans composition pedagogy and administration and the post 9 11 university *Feminist Activism in Academia* Ellen C. Mayock, Domnica Radulescu, 2014-01-10 The eleven essays making up this book unite scholars from various disciplines to explore how feminists live survive and thrive in academia The pieces investigate innovative ways that women academics occupy the space of the Academy as real living bodies while resisting being judged devalued or valued on the basis of their biological bodies Specific themes include abortion rights activism authority in the classroom feminist mentoring the role of women s studies programs division of labor and the role of theater and performance in enacting lasting change
