Rethinking Social Inequality David Robbins, Lesley Caldwell, Graham Day, Karen Jones, Hilary Rose, 2018-05-11 Originally published in 1982 Rethinking Social Inequality is a collection of essays looking at the breadth of contemporary work in social inequality The book focuses on inequality as a central project of sociological enquiry and is unified by the overarching rejection of a distributional notion of inequality in the place of a relational one The object of the study is not the deprived social group but the unequal social relations which is manifested in a variety of forms The themes addressed in this collection indicate a shift in the areas of study concerned with social inequality rejecting class based inequality in with that of race gender and age

MEDINFO 2021: One World, One Health – Global Partnership for Digital Innovation P. Otero, P. Scott, S.Z. Martin, 2022-08-05 The World Health Organization defines health as a state of complete physical mental and social well being and not merely the absence of disease or infirmity and its constitution also asserts that health for all people is dependent on the fullest co operation of individuals and States The ongoing pandemic has highlighted the power of both healthy and unhealthy information so while healthcare and public health services have depended upon timely and accurate data and continually updated knowledge social media has shown how unhealthy

misinformation can be spread and amplified reinforcing existing prejudices conspiracy theories and political biases This book presents the proceedings of MedInfo 2021 the 18th World Congress of Medical and Health Informatics held as a virtual event from 2 4 October 2021 with pre recorded presentations for all accepted submissions The theme of the conference was One World One Health Global Partnership for Digital Innovation and submissions were requested under 5 themes information and knowledge management quality safety and outcomes health data science human organizational and social aspects and global health informatics The Programme Committee received 352 submissions from 41 countries across all IMIA regions and 147 full papers 60 student papers and 79 posters were accepted for presentation after review and are included in these proceedings Providing an overview of current work in the field over a wide range of disciplines the book will be of interest to all those whose work involves some aspect of medical or health informatics *Between Stress and Hope* Rebecca

Jacoby, Giora Keinan, 2003-10-30 This volume focuses on the concepts of stress and hope their psychological and physical outcomes Past research has focused primarily or exclusively on either stress or hope and its effect on health This work discusses them side by side and highlights their interrelations Various theoretical approaches dealing with stress and hope are discussed and a review of the most recent empirical data is presented Also included are reports on individuals and groups that have been exposed to various stressful situations such as racial prejudice life threatening illness or imprisonment The role of hope in coping with these situations is emphasized Contributors to this edited collection are at the cutting edge of theory and research in the fields of stress and hope Students and scholars studying health psychology stress management or stress and coping will appreciate the information presented as will those involved with medical science nursing and sociology

Manchester Life Tables John Tatham, 1893 *Images of Aging* Mike Featherstone, Andrew Wernick, 2003-09-02 We all have a finite life span We are born we get old and we die Given the universality of the ageing process it is remarkable that there is almost a complete absence of study of culture and self image of the middle aged and old *Images of Ageing* Cultural Representations of Later Life changes this The contributors discuss images of ageing which have come to circulate in the advanced industrial societies today They address themes such as body and self image in everyday interaction experience and identity on old age advertising and consumer culture images of the elderly images of ageing used by Government agencies in health education campaigns the diversity of historical representations of the elderly gender images of ageing images of senility and second childhood images of health illness and death
