Surviving Poverty In Medieval Paris Ge:

The Voice of the Poor in the Middle Ages Mark R. Cohen, 2013-11-28 They are voices that have been silent for centuries those of captives and refugees widows and orphans the blind and infirm and the underclass of the working poor Now for the first time the voices of the poor in the Middle Ages come to life in this moving book by historian Mark Cohen A companion to Cohen's other volume *Poverty and Charity in the Jewish Community of Medieval Egypt* the book presents more than ninety letters alms lists donor lists and other related documents from the Geniza a hidden chamber for discarded papers situated inside a wall in a Cairo synagogue Cohen has translated these documents providing the historical context for each In the past most of what we knew of the poor in the Middle Ages came from records and observations compiled by their literate social superiors from tax collectors to the inquisitor's clerk from criminal judges to the benefactors of the helpless from makers of Islamic waqf deeds to authors of Arabic chronicles and in Judaism from Rabbis who wrote responsa to compilers of Jewish law codes What distinguishes this book is that it contains the voices of the poor themselves found in documents heretofore largely ignored Because an ancient custom in Judaism prohibited the destruction of pages of sacred writing the documents were preserved largely unharmed for as many as nine centuries *The Voice of the Poor in the Middle Ages* provides access to the attitudes and philanthropic activities of the charitable alongside the dramatic writings of the poor themselves whether penned in their own hands or dictated to a scribe or family member The book also allows a rare glimpse into the women of the Middle Ages as well as into the world of private charity an area long elusive to the medieval historian For researchers and students alike this book will be an invaluable social history source for years to come

Commemorating the Dead in Late Medieval Strasbourg Charlotte A. Stanford, 2016-05-23 The Book of Donors for Strasbourg cathedral is an extraordinary medieval document dating from ca 1320 1520 with 6 954 entries from artisan merchant and aristocratic classes These individuals listed gifts to the cathedral construction fund given in exchange for prayers for the donors souls The construction administrators the Oeuvre Notre Dame also built a chapel dedicated to the Blessed Virgin Mary in the nave that housed the book and showcased prayers and masses for the building benefactors Chapel book and west front project formed a three part commemorative strategy that appealed to the faithful of the city and successfully competed against other religious establishments also offering memorial services Charlotte A Stanford's study is the first to comprehensively analyze the unpublished Book of Donors manuscript and show the types and patterns of gifts made to the cathedral It also compares these gift entries with those in earlier obituary records kept by the cathedral canons as well as other medieval obituary notices kept by parish churches and convents in Strasbourg Analysis of the Book of Donors notes the increase of personal details and requests in fifteenth century entries and discusses the different memorial

opportunities available to the devout This study draws a vivid picture of life in late medieval Strasbourg as seen through the lens of devotional and memorial practices and will be of particular interest to scholars of art history memory and medieval urban life

Frauen und Männer in der Gesellschaft des Mittelalters Cordula Nolte, 2013-07-01 Das Verhältnis der Geschlechter ist für alle Bereiche der mittelalterlichen Geschichte von Bedeutung Cordula Nolte schreibt eine Sozial und Kulturgeschichte unter dem Vorzeichen Geschlecht indem sie die Lebensbedingungen Lebensformen Aufgabenbereiche und Handlungsspielräume von Frauen und Männern verschiedener sozialer Schichten ebenso thematisiert wie die Verhaltensnormen und Leitbilder mit denen sie sich in Welt und Kirche konfrontiert sahen Dabei wird deutlich wie sich die Existenzformen von Frauen und Männern vor dem Hintergrund gesellschaftlicher und kultureller Veränderungen entwickelten Der geographische Schwerpunkt liegt auf dem frühmittelalterlichen Frankenreich bzw auf dem deutschen Reich im Hoch und Spätmittelalter So ergibt sich ein kompakter Überblick im Sinne einer interdisziplinären Mediävistik die neue Zugänge zur Erforschung von Politik Gesellschaft Wirtschaft Recht Kultur und Religion unter dem Motto Gendering the Middle Ages liefert

Capital Women Jan Luiten van Zanden, Tine De Moor, Sarah Carmichael, 2019-02-14 How women increasingly became economic agents in early modern Europe is the focus of this stimulating book which highlights how female agency was crucial for understanding the development of the Western European economy and sheds light on economic development today Jan Luiten van Zanden Tine De Moor and Sarah Carmichael argue that over centuries a European Marriage Pattern developed characterized by high numbers of singles among men and women high marriage ages among men and women and neolocality where the couple forms a new nuclear household and did not co-reside with the parents of either bride or groom This was due to the influence of the Catholic Church's teachings of marriage based on consensus the rise of labor markets and institutions concerning property transfers between generations that enhanced wage labor by women Over time an unprecedented demographic regime was created and embedded in a highly commercial environment in which households

interacted frequently with labor capital and commodity markets This was one of the main causes of the gradual move away from a Malthusian state towards an economy able to generate long term economic growth The authors explore how the pattern was influenced by and influenced female human capital formation access to the capital market and participation in the labor market They use numerous measures of economic activity including the unique Girlpower Index that measures the average age at first marriage of women minus the spousal age gap with higher absolute age at marriage and lower spousal age gap both indicating greater female agency and autonomy The book also examines how this measure can increase understanding of contemporary dynamics of women and the economy The authors thus shed light on the degree to which women are allowed to play an influential role in and on the economy and society which varies greatly from one society to another
