**Surviving Globalism** Ted Schrecker, 2016-07-27 Management consultant Kenichi Ohmae describes the new reality of global economic competition as a borderless world What is the future of human values and of environmental quality in such a world The authors whose work is collected in *Surviving Globalism* try to answer these questions from the point of view of sociology social history philosophy geography and political theory Many argue that the gains made over the last few decades in terms of social justice and environmental protection are in grave peril Others take a somewhat more optimistic note but all emphasize the importance of dealing with environmental and social policy against the background of a transforming global economy *Globalization and Environmental Challenges* Hans Günter Brauch, Úrsula Oswald Spring, Czeslaw Mesjasz, John Grin, Pál Dunay, Navnita Chadha Behera, Béchir Chourou, Patricia Kameri-Mbote, P. H. Liotta, 2008-01-23 Put quite simply the twin impacts of globalization and environmental degradation pose new security dangers and concerns In this new work on global security thinking 91 authors from five continents and many disciplines from science and practice assess the worldwide reassessment of the meaning of security triggered by the end of the Cold War and globalization as well as the multifarious impacts of global environmental change in the early 21st century *The Revival of Civil Society* Michael G. Schechter, 2016-07-27 What is meant by the concept of civil society Why do some equate it with liberal democracy while others think it simply a guise for a market economy Who benefits from globalization and who loses out Can civil society prosper in an era of globalization Can global civil society restrain some of the negative consequences of economic globalization Through a series of unique case studies and theoretical inquiries this volume provides a set of concrete answers to questions such as these *Democratization in the Third World* Lars Rudebeck, Olle Törnquist, Virgilio Rojas, 2016-07-27 Democratization in the Third World addresses many current issues of development democratization and civil society in countries in Asia Africa and Latin America against the background of theoretical introductions and comparisons with the Swedish historical experience of democratisations The authors from seven different continents examine civil society and its relation to the state throughout the world and assess prospects for sustainable democratization **The Elusive Promise of NGOs in Africa** S. Dicklitch, 1998-07-13 Dicklitch challenges the dominant discourse of neo liberalism which places NGOs and civil society at the forefront of democratization and development in Africa Based on nine months of field research in Uganda the study draws on evidence from the successfully liberalizing country and shows how NGO potential for democratization and development has been subverted by state directives structural and historical conditions as well as the internal limitations of NGOs *Institutional Change and the Political Transition in Hong Kong* Ian Scott, 2016-07-27 Scott focuses on Hong Kong's political bureaucratic and legal institutions The first section is concerned with public opinion on institutional provisions voting systems and political parties The second deals with current problems facing the executive legislature bureaucracy and legal system The third part considers the effects of Chinese rule on the social and economic

Mills, 1998-09-14 Mills focuses on one of the most significant parts of the sovereignty debate on human rights and humanitarian issues and raises three interrelated questions First how are empirical processes and practices undermining traditional notions of sovereignty These include actions by the United Nations and other organizations on behalf of human rights such as humanitarian intervention the movements of refugees and others across the borders and increasing calls for communal self determination Second taking into account the above question and examining these issues from a normative political theory perspective what should be the relationship between individuals groups states and the international community with respect to the twin aspects of power and authority inherent in sovereignty Third what new or modified international institutions may be needed in the future to deal with these humanitarian issues      **Beyond UN Subcontracting** Thomas G. Weiss, 2016-07-27 Beyond UN Subcontracting sheds light through a series of post Cold War case studies on whether one United Nations efforts both to devolve responsibility for security to regional institutions and the delivery of some of their services to international nongovernmental organisations are a step toward or away from better global governance The cases are designed to explore patterns of interaction and to provide lessons for the future

**Dilemmas in Defence Decision-Making** A. Crosby, 1998-05-13 The Cold War produced a matrix of Canadian US extra governmental military and economic relationships which significantly shaped Canadian political decision making as it related to the defence of the continent under the auspices of the North American Air Aerospace Defence Agreement NORAD In the post cold War era these relationships continue to effectively support a traditional security agenda for the Canadian government The rewritten NORAD Agreement signed in March 1996 is the vehicle for Canadian participation in US missile defence programs worldwide Paying particular attention to the decisions to adopt a nuclear weapons role for Canada's continental air defence forces to test the US air launched cruise missile in the Canadian North and to become increasingly involved in active missile and space based defence programs the author examines the Cold War construction of Canadian US military and economic relationships the effects of these relationships on political decision making the public discourse as a
