Survivor Werner Barasch, 2004-11-01 There is no doubt that strange ways have been found to evade the Nazi regime of terror and autobiographies of survivors are laced with chance events and incredible stories that made survival possible and they have more angles than could commonly be believed or imagined over fifty years later A very special story is told by Werner Barasch whose life from early on was quite evidently guided by a single objective to flee from Nazi Germany to survive The pursuit of this objective was approached with consistent rationality and has required the application of well conceived strategies as shown in his autobiographical sketches and of which one took a leading role the utilization of language or more precisely of languages because the itinerary that Barasch had to take from Germany led through several countries Italy Switzerland France Spain and eventually America Werner a reticent teenager goes to Italy with his mother to be schooled in an excellent prep school and learns Italian a foundation of his treasury of languages which contributed to saving his life and maybe to his logical thinking and thus to undertaking his survival as a strategic enterprise The seriousness the author has shown in the pursuit of his objective is impressive as well as the detachment with which he describes his own life Not that things went along without problems as it might sound from the summary Barasch writes of suffering from nightmares for years until one particular dream provided an end to them Nor that the story proceeded simply painlessly or in compliance with his pursuits but there is always a dominant rationality that seems almost startling for example the description of the behavior of German refugee prisoners in the French Camp Argelhs who after the French guards had abandoned the camp because of the advancing German front Among the refugees mass panic broke out they ran about inside the camp like madmen until the Germans came He comments There was a complete breakdown of logical thinking the first and indispensable requisite for survival No need to mention that the lack of initiative meant death in an extermination camp but would the victims really have believed it Translated from the German monthly Die Mahnung Reminders ENTRONNEN the author's German version was placed on the recommended reading list in schools by the German Department of Education in Berlin and by most state and local school authorities 2003 Susan Sarah Cohen, 2012-02-14 This work includes international secondary literature on anti-Semitism published throughout the world from the earliest times to the present It lists books dissertations and articles from periodicals and collections from a diverse range of disciplines Written accounts are included among the recorded titles as are manifestations of anti-Semitism in the visual arts e.g. painting caricatures or film action taken against Jews and Judaism by discriminating judiciaries pogroms massacres and the systematic extermination during the Nazi period The bibliography also covers works dealing with philo-Semitism or Jewish reactions to anti-Semitism and Jewish self hate An informative abstract in English is provided for each entry and Hebrew titles are provided with English translations *The Memoirs of a Survivor*, 1994
