## **Suspects Audio Cassettes:**

**The Suspect** Kent Alexander, Kevin Salwen, 2019-11-12 The intensively reported and fluidly written true crime account of the heroic security guard accused of the 1996 Centennial Olympic Park bombing Wall Street Journal On July 27 1996 security guard Richard Jewell spotted a suspicious bag in Atlanta s Centennial Olympic Park the town square of the 1996 Summer Games Inside was a bomb the largest of its kind in FBI and ATF history The bomb detonated amid a crowd of fifty thousand people But thanks to Jewell it only wounded 111 and killed two not the untold scores who would have otherwise died Yet seventy two hours later the FBI turned Jewell from a national hero into their main suspect The decision not only changed Jewell s life it let the true bomber roam free to strike again Today most of what we remember of this tragedy is wrong In a triumph of investigative journalism former U S Attorney Kent Alexander and reporter Kevin Salwen reconstruct events before during and after the bombing Drawn from law enforcement evidence and the extensive personal records of key players including Richard himself The Suspect is a gripping story of domestic terrorism and an innocent man s fight to clear his name

**The Fifth Suspect** Robert McNeil, 2020-04-22 A DCI deals with a homicide on a boat in the Thames and hostility from his own colleagues in the debut of this police thriller series A shady London nightclub owner is found dead on his boat on the River Thames and newly promoted DCI Alex Fleming a man with a troubled past is keen to prove his worth with his first murder case after joining the Major Crime Unit of Thames Valley Police But Bill Watson a belligerent fellow DCI gives Fleming a hostile reception and as internal politics come into play Fleming finds himself up against both a difficult case and his own colleagues During the course of the investigation Fleming and his sergeant identify five suspects Now they need to eliminate them one by one or figure out whether they should be looking somewhere else entirely in this first book in an electrifying new crime series

**The Science of Perception and Memory** Daniel Reisberg, 2014 A robbery victim tries to remember how the crime unfolded and who was present at the scene A medical patient recalls the doctor saying that the pain in her side wasn t worrisome and now that the tumor is much larger she s suing An investigation of insider trading hinges on someone s memory of exactly what was said at a particular business meeting In these and countless other examples our ability to remember our experiences is crucial for the justice system The problem though is that perception and memory are fallible How often do our eyes or memories deceive us Is there some way to avoid these errors Can we specify the circumstances in which perceptual or memory errors are more or less likely to occur Professor Daniel Reisberg tackles these questions by drawing on the available science and his personal experience training attorneys He provides detailed pragmatic advice that will prove helpful to law enforcement prosecutors defenders and anyone else who hopes to maximize the quality of the evidence available to the courts whether the evidence is coming from witnesses victims or defendants This book is carefully rooted in research but written in a way that will make it fully accessible to non scientists working in the justice system Early chapters provide an overview of the relevant science and a broad portrait of how perception and memory

function Later chapters offer practical solutions for navigating situations involving eyewitness identifications remembered conversations evidence obtained from interviews with children confession evidence and the risks of false confession
