Metaphysics of Trust Michaël Suurendonk, 2022-04-22 This book provides the foundations of trust amidst radical uncertainty Specifically it addresses the question of under what condition it is possible to trust relative strangers As the first logical investigation of its kind the book breaks with many preconceived ideas we have about trust and the scientific method that leads to its clarification It builds on the insight that contrary to widespread belief it is not risk but freedom that is most fundamental for explaining trust In fact trust is the giving of freedom out of freedom and one s consciousness of the potential risks involved merely disturbs one s ability to trust The book makes the twofold normative claim that any legitimate scientific preoccupation with trust must necessarily include the concept of freedom in its account and that theories of trust that run against the logical prerequisites of freedom are a priori falsified It presents a theoretical proposal that makes sure that trust instead of being constructed as a passive and functional illusion of natural love is

understood as the necessary product of an active reason that is oriented towards developing human autonomy **The Plebs**, 1910 **Recent Themes in the History of Africa and the Atlantic World** Donald A. Yerxa, 2008 Described as the New York Review of Books for history Historically Speaking has emerged as one of the most distinctive historical publications in recent years actively seeking out contributions from a pantheon of leading voices in historical discourse This collection of articles and forums by prominent historians explores the relationship of Africa to world history maps the current state of the burgeoning field of Atlantic history and debates the accuracy of Olaudah Equiano's seminal narrative The standard approach of world historians often compresses the African past into interpretive frameworks that leave Africans without a history of their own Joseph C Miller makes the case here for an alternative approach a multicentric world history that gives voice to the various ways Africans experienced the past and an impressive array of Africanist and world historians respond The volume also assesses the state of the field of Atlantic history and includes a spirited forum on Vincent Carretta's provocative thesis that Olaudah Equiano author of the most important account available of the horrific Middle Passage was actually born in South Carolina and not Africa **The New International Encyclopaedia**, 1929 *New International Encyclopedia*, 1915

The New International Encyclopædia Frank Moore Colby, Talcott Williams, 1917 **Social Trust Patterns** Jade Earing, AI, 2025-02-21 Social Trust Patterns explores the crucial role of social trust in fostering societal cohesion economic prosperity and political stability It examines how networks of trust often referred to as social capital influence various aspects of society from economic transactions to public health The book argues that trust isn't static but evolves through social interactions institutional frameworks and cultural norms One intriguing aspect is its examination of how trust networks have been reshaped by urbanization industrialization and globalization The book uniquely integrates insights from psychology political science and economics to offer a comprehensive understanding of trust It progresses from micro level foundations such as individual trust beliefs to meso level analyses of trust within organizations and communities and finally to macro level investigations of political and economic systems Evidence is drawn from diverse sources including surveys experiments and historical analyses to analyze group behavior and the dynamics of trust patterns This approach helps readers understand the interplay between individual choices and broader social constraints The book also highlights the importance of balancing trust with critical thinking acknowledging the dangers of blind trust By understanding the factors that influence trust policymakers community leaders and individuals can work to build stronger more collaborative societies and address contemporary challenges like rising inequality and political polarization *The University Magazine*, 1917
