Resources in Education , 2001-04 **Rural Teacher Education** Michael Corbett, Dianne Gereluk, 2020-02-15 This book examines challenges associated with the education of teachers in and for rural places It offers a new perspective with respect to how Canadian educators are shifting the conversation toward a hopeful discourse concerning how educators can foster meaningful rural learning environments which will contribute to building stronger rural communities and regions A central focus of the book is emerging reconceptualization of education place and indigeneity in Canadian education in the wake of the Truth and Reconciliation Commission Though the challenge of addressing rural teaching and learning lies partly in the nuances and complexities of unique places there are also common threads that affect virtually all communities in rural regional and remote educational cultural economic and social geographies Chapters in this collection provide current research in Canadian rural education including examples and stories from the field contributed by teachers administrators and superintendents on the challenges and creative opportunities that they have discovered in their own rural context giving hope and inspiration for what is possible The book will appeal to all readers interested in rural education and teacher education as well as to those concerned with educational inequality and indigenous education *The Link* , 1998

Making Large Schools Work Arthur Shapiro, 2009-10-16 American schools are undergoing huge changes among the most significant of which is that their size is increasing rapidly This book lays out very practical approaches to making our ever increasingly large schools work more effectively By closely analyzing the advantages and disadvantages of large schools the author can provide effective tools and strategies for dealing with them Shapiro digs away at the foreseen and unforeseen consequences of this rapid escalation of size and presents practical tried and true strategies for undoing some of the more unfortunate results of this social trend or drift The National Information Infrastructure Craig B. Howley, Bruce O. Barker, 1997 *Education Under Siege* Arthur Shapiro, 2013-10-21 We Americans seem prone to bandwagon onto fads particularly now that reforming education has become a national priority Unfortunately many of those fads now caroming across our continent are outright frauds some are fantasies even fictions Even more unfortunately many are undermining our public schools teachers kids and communities and pillaging our tax dollars in the process This book analyzes each major reform No Child Left Behind Common Core State Standards grading schools evaluating teachers failing students vouchers charters online virtual charters and finds them seriously wanting We conclude with reforms that work actually helping teachers kids parents and communities *The Rural Educator*, 2005 Catholic Schools in the Public Interest Patricia A. Bauch, 2014-03-01 This book is a study of the contributions of Catholic K 12 schools in the United States to the public interest from the 1800 s to the present It presents seven strategies that have the possibility of leading Catholic schools in positive new directions Outsiders often misunderstand the mission purpose and inclusivity of Catholic schools This book brings a new focus on Catholic schools from the perspective of their service to this country through the education of Catholics and non Catholics In 16 chapters a variety of scholars examine these schools across three periods echoes of the past realities of the present and future directions The intention of the editor and authors of this volume is that Catholic schools and those interested in conducting Catholic school research will find guidance especially in examining newer types of partnerships flourishing in different types of Catholic schools in different regions of the country and types of schools from rural suburban to city and inner city schools By increasing the data we have such studies could help stem the tide of Catholic school demise In addition Catholic school leaders and parents who chose them or are thinking about choosing them will find here a balanced description of what constitutes a Catholic school and how they are different from public schools In understanding better the role and function of Catholic schools in serving the public interest new ideas innovations and improvements can help these schools survive and grow *The ERIC Review*, 1991 Provides information on programs research publications and services of ERIC as well as critical and current education information Prairie Town Jacqueline Edmondson, 2003-06-05 *Prairie Town Redefining Rural Life in the Age of Globalization* describes the contemporary rural condition and efforts to sustain rural life in one small Minnesota community at the turn of the 21st century Like many other agricultural based towns Prairie Town struggled for survival within the context of the on going farm crisis NAFTA neoliberal agricultural policies and

growing agribusiness that negatively impacted many farmers throughout the world The effects of globalization the displacement of rural workers to urban areas and the deterioration of rural life were a widespread phenomenon In spite of these complex issues Prairie Town worked to define a new rural life one which entailed a new rural literacy a new way of reading rural life that changed the way rural life work and education were realized Prairie Town s story offers us hope as we learn that neoliberalism is not inevitable nor is the demise of rural America From this community we learn that not everything can be bought and sold and disidentification with dominant societal structures is possible within a participatory democratic society New cultural models can be constructed that enable individuals in Prairie Town and elsewhere to actively work to construct ways of being that are consistent with their values and hopes for how they might live together

Canadian Perspectives on the Sociology of Education Cynthia Levine-Rasky,2009 This collection of original essays examines the complex relationship between schooling and society By taking a critical approach the text urges readers to formulate difficult questions about the practice of teaching and the experience of schooling The text also illustrates the multiple forces that come into play for both educators and for students and challenges the reductive and pragmatic approach adopted in conventional education courses **Encyclopedia of Education: Race-State** James W. Guthrie,2003

Reconstructing School Renovation James Brooks Tuttle,2002 **Child Friendly Schools Manual** ,2009 This Child Friendly Schools CFS Manual was developed during three and a half years of continuous work involving the United Nations Children s Fund education staff and specialists from partner agencies working on quality education It benefits from fieldwork in 155 countries and territories evaluations carried out by the Regional Offices and desk reviews conducted by headquarters in New York The manual is a part of a total resource package that includes an e learning package for capacity building in the use of CFS models and a collection of field case studies to illustrate the state of the art in child friendly schools in a variety of settings *The Cumulative Book Index* ,1997 A world list of books in the English language
