Suths Story:

The Kin Peter Dickinson, 2015-05-26 Four children embark on a quest for a new land at the dawn of human history Africa two hundred thousand years ago Suth and Noli were orphaned the night the murderous strangers came speaking an unfamiliar language and bringing violence to the peaceful Moonhawk tribe Determined not to die in the desert Suth and Noli slip away with Ko and Mana Suth the eldest leads them Noli s dreams of the future guide them Ko gives them courage Mana gives them peace Their search for a new Good Place one of food and safety will take them across the valleys and plains of prehistoric Africa and bring them together as a tribe and as a family **Personal Souths** Douglas B. Chambers, 2012-04-25 Personal Souths a collection of twenty interviews with famous southern writers will mark the fiftieth anniversary of The Southern Quarterly one of the oldest scholarly journals founded in 1962 dedicated to southern studies The figures interviewed range from Erskine Caldwell Eudora Welty and Tennessee Williams all from the 1970s to a virtual Who s Who of southern literature in the second half of the twentieth century All of these interviews were originally published in the journal in the 1980s 1990s and 2000s and are collected here for the first time The South is represented broadly with writers from eight states at least four represent the mountain South Donald Harrington Bobbie Ann Mason Robert Morgan Lee Smith while another four typify a cosmopolitan South Reynolds Price Mary Lee Settle Elizabeth Spencer Tennessee Williams The greatest number of voices at least eight of the authors speak for or from the poor white South Larry Brown Erskine Caldwell Harry Crews Donald Harrington Bobbie Ann Mason Robert Morgan Del Shores Lee Smith Though there is only one African American writer Ernest I Gaines another interview William Styron Pulitzer Prize winning author of The Confessions of Nat Turner also focuses on a conversation about African American literature The interviews are all fascinating Not only do they reveal the personalities of these southern literary stars but they also represent a self conscious community of writers It is a testament to the quality of The Southern Quarterly that many of these writers when discussing their most important contemporaries often refer to other writers whose interviews are also in this collection These firsthand discussions will continue to illuminate and inform our understanding of their creative work **Undead Souths** Eric Gary Anderson, Taylor Hagood, Daniel Cross Turner, 2015-10-19 Examines physical symbolic psychological and cultural forms of undeadness in a variety of media and historical periods **Ex-Centric Souths** Urszula Niewiadomska-Flis, 2020-02-04 Ex Centric Souths Re Imagining Southern Centers and Peripheries adds a voice in ongoing attempts to chart new routes and to decenter the South in many ways in the hope of exploring Southern identity and multiple Souths The articles collected in this volume bring to the forefront the translocal and transnational connections and relationships between the South and the circum Caribbean region they address the changing nature of Southernness and especially its sense of place and finally they investigate the potential of various texts to narrate and revisit regional concerns Some contributions hold up to view topics ignored and marginalized while other decontextualize themes and issues central to Southern studies by telling alternative histories Swamp Souths

Kirstin L. Squint, Eric Gary Anderson, Taylor Hagood, Anthony Wilson, 2020-03-04 Swamp Souths Literary and Cultural Ecologies expands the geographical scope of scholarship about southern swamps Although the physical environments that form its central subjects are scattered throughout the southeastern United States the Atchafalaya the Okefenokee the Mississippi River delta the Everglades and the Great Dismal Swamp this evocative collection challenges fixed notions of place and foregrounds the ways in which ecosystems shape cultures and creations on both local and global scales Across seventeen scholarly essays along with a critical introduction and afterword Swamp Souths introduces new frameworks for thinking about swamps in the South and beyond with an emphasis on subjects including Indigenous studies ecocriticism intersectional feminism and the tropical sublime The volume analyzes canonical writers such as William Faulkner Zora Neale Hurston and Eudora Welty but it also investigates contemporary literary works by Randall Kenan and Karen Russell the films Beasts of the Southern Wild and My Louisiana Love and music ranging from swamp rock and zydeco to Beyonc's visual album Lemonade Navigating a complex assemblage of places and ecosystems the contributors argue with passion and critical rigor for considering anew the literary and cultural work that swamps do This dynamic collection of scholarship proves that swampy approaches to southern spaces possess increased relevance in an era of climate change and political crisis Souths Michele Grigsby Coffey, Jodi Skipper, 2017-08-01 The work of considering imagining and theorizing the U.S. South in regional national and global contexts is an intellectual project that has been going on for some time Scholars in history literature and other disciplines have developed an advanced understanding of the historical social and cultural forces that have helped to shape the U S South However most of the debates on these subjects have taken place within specific academic disciplines with few attempts to cross engage Navigating Souths broadens these exchanges by facilitating transdisciplinary conversations about southern studies scholarship The fourteen original essays in Navigating Souths articulate questions about the significances of the South as a theoretical and literal home base for social science and humanities researchers They also examine challenges faced by researchers who identify as southern studies scholars as well as by those who live and work in the regional South and show how researchers have responded to these challenges In doing so this book project seeks to reframe the field of southern studies as it is currently being practiced by social science and humanities scholars and thus reshape historical and cultural conceptualizations of the region Small-Screen Souths Lisa Hinrichsen, Gina Caison, Stephanie Rountree, 2017-11-16 As the first collection dedicated to the relationship between television and the U S South Small Screen Souths addresses the growing interest in how mass culture represents the region and influences popular perceptions of it In sixteen essays divided into three thematic sections scholars of southern culture analyze representations of the South in a variety of television shows spanning the history of the medium from classic network programs such as The Andy Griffith Show and Designing Women to some of today's popular franchises like Duck Dynasty and The Walking Dead The first section Politics and Identity in the Televisual South focuses on how television constructs

understandings of race gender sexuality and class often adapting to changing configurations of community and identity The next section Caricatures Commodities and Catharsis in the Rural South examines the tension between depictions of southern rural communities and assumptions about abject whiteness particularly conceptions of poverty and profitized culture The concluding section Dis Locating the South considers the influence of postcolonialism globalization and cosmopolitanism in understanding television featuring the region Throughout the essays investigate the profuse often contradictory ways that the U S South has been represented on television seeking to expand and pluralize myopic perspectives of the region By analyzing depictions of the South from the classical network era to the contemporary post broadcast age Small Screen Souths offers a broad historical scope and a multiplicity of theoretical and interdisciplinary perspectives on what it means to see the South from the television screen **Deep Souths** J. William Harris, 2003-03-17 Finalist for the Pulitzer Prize in HistoryCo winner of the James A Rawley Prize from the Organization of American HistoriansWinner of the Theodore Saloutos Memorial Book Prize from the Agricultural History Society Deep Souths tells the stories of three southern regions from Reconstruction to World War II the Mississippi Yazoo Delta the eastern Piedmont of Georgia and the Georgia Sea Islands and Atlantic coast Though these regions initially shared the histories and populations we associate with the idea of a Deep South all had economies based on slave plantation labor in 1860 their histories diverged sharply during the three generations after Reconstruction With research gathered from oral histories census reports and a wide variety of other sources Harris traces these regional changes in cumulative stories of individuals across the social spectrum Deep Souths presents a comparative and ground level view of history that challenges the idea that the lower South was either uniform or static in the era of segregation By the end of the New Deal era changes in these regions had prepared the way for the civil rights movement and the end of segregation Other Souths Pippa Holloway, 2008 Other Souths collects fifteen innovative essays that place issues of race class gender ethnicity and sexuality at the center of the narrative of southern history Using a range of methodologies and approaches contributing historians provide a fresh perspective to key events and move long overlooked episodes into prominence Pippa Holloway edited the volume using a chronological and event driven framework with which many students and teachers will be familiar The book covers well recognized topics in American history wars reform efforts social movements and political milestones Cultural topics are considered as well including the development of consumer capitalism the history of rock and roll and the history of sport The focus and organization of the essays underscore the value of southern history to the larger national narrative Other Souths reveals the history of what may strike some as a surprisingly dynamic and nuanced region a region better understood by paying closer and more careful attention to its diversity
