Insights 1 Financial freedom doesn't depend on how much money you have. It's when you have power over your fears and anxieties instead of the other way around. When you understand and address your fears, you can start to have power over your life. 2 I learned that money is important but that it can't buy me happiness. I began to understand that money will work for me and I will always have enough when I give it energy, time, and understanding. 3 The first steps of this book take you back to why you don't do the things you know you should do and then beyond that to where you can take action. The laws of managing money teach you why you must trust yourself more than you trust anyone else with your money. 4 To achieve complete financial freedom, you must follow all nine steps. The most important thing to remember is that you can make your goals happen step by step. The power is within you.
