Clayton, 2012-11-01 Filled with real life anecdotes, advice, quips and tips encompassing all things married: the in-laws, anniversaries and much, much more. **Genders, Sexualities, and Spiritualities in African Pentecostalism** Chammah J. Kaunda, 2020-06-22 This book examines the complex and multifaceted nature of African Pentecostal engagements with genders and sexualities. In the last three decades, African Pentecostalism has emerged as one of the most visible and profound aspects of religious change on the continent and is a social force that straddles cultural, economic and political spheres. Its conventional and selective literal interpretations of the Bible with respect to gender and sexualities are increasingly perceived as exhibiting a strong influence on many aspects of social and public institutions and their moral orientations. This collection features articles which examine sexualities and genders in African Pentecostalism using interdisciplinary methodological and theoretical approaches grounded within traditional African thought systems with the goal of enabling a broader understanding of Pentecostalism and sexualities in Africa. **The Triumph of Reality TV** Leigh H.

Edwards, 2013-01-09 This book provides an up-to-date account of how reality TV has developed, why it has become the most popular genre on television today and how the explosion in reality TV signals new developments in American media culture. The reasons behind reality TV's continued popularity go beyond the sensationalism and low production cost of these programs; there is much more to the genre's continued success than just escapism or guilty pleasure. **The Triumph of Reality TV: The Revolution in American Television** identifies and explores five key media trends reality TV has used to continually draw in viewers and ensure success. These media trends include innovations in storytelling, making emotional appeals to viewers and applying content from television to other media such as films, music, albums, webisodes, online games and smart phone apps. Author Leigh H. Edwards also analyzes how reality TV shows target themes of social conflict such as changing ideas of the American family and address common anxieties and tensions in American society such as gender, race, class and economic struggle. A wide variety of reality shows including American Idol, Celebrity Rehab, Jackass, Run's House, Survivor and The Hills are profiled. An appealing read for students, scholars and general readers alike, this book provides fascinating insights into the complexities of a seemingly simplistic form of mass entertainment. Reacting to Reality Television Beverley Skeggs, Helen Wood, 2012 The unremitting explosion of reality television across the schedules has become a sustainable global phenomenon generating considerable popular and political fervour. The zeal with which

television executives seize on the easily replicated formats is matched equally by the eagerness of audiences to offer themselves up as television participants for others to watch and criticise But how do we react to so many people breaking down fronting up tearing apart dominating empathising humiliating and seemingly laying bare their raw emotion for our entertainment Do we feel sad when others are sad Or are we relieved by the knowledge that our circumstances might be better As reality television extends into the experiences of the everyday it makes dramatic and often shocking the mundane aspects of our intimate relations inviting us as viewers into a volatile arena of mediated morality This book addresses the impact of this endless opening out of intimacy as an entertainment trend that erodes the traditional boundaries between spectator and performer demanding new tools for capturing television s relationships with audiences Rather than asking how the reality television genre is interpreted as text or representation the authors investigate the politics of viewer encounters as interventions evocations and more generally mediated social relations The authors show how different reactions can involve viewers in tournaments of value as women viewers empathise and struggle to validate their own lives The authors use these detailed responses to challenge theories of the self governmentality and ideology A must read for both students and researchers in audience studies television studies and media and communication studies **I Swear by Almighty**
