Theater and Crisis Patrice D. Rankine, 2024-03-04 Demonstrates how myth literature and theater are part of and respond to public or political events *Book Prices* Edward N. Zempel, Linda A. Verkler, 1993 **Black Men on Race, Gender, and Sexuality** Devon Carbado, 1999-07 A groundbreaking anthology of essays providing commentary on gender and sexuality inclusion in the antiracist movement In late 1995 the Million Man March drew hundreds of thousands of black men to Washington DC and seemed even to skeptics a powerful sign not only of black male solidarity but also of black racial solidarity Yet while generating a sense of community and common purpose the Million Man March with its deliberate exclusion of women and implicit rejection of black gay men also highlighted one of the central faultlines in African American politics the role of gender and sexuality in antiracist agenda In this groundbreaking anthology a companion to the highly successful *Critical Race Feminism* Devon Carbado changes the terms of the debate over racism gender and sexuality in black America The essays cover such topics as the legal construction of black male identity domestic abuse in the black community the enduring power of black machismo the politics of black male white female relationships racial essentialism the role of black men in black women's quest for racial equality and the heterosexist nature of black political engagement Featuring work by Cornel West Huey Newton Henry Louis Gates Jr A Leon Higginbotham Jr Houston Baker Marlon T Riggs Dwight McBride Michael Awkward Ishmael Reed Derrick Bell and many others Devon Carbado's anthology stakes out new territory in the American racial landscape *Critical America* A series edited by Richard Delgado and Jean Stephancic **The Black American Short Story in the 20th Century** Peter Bruck, 1977-01-01 This volume is a collection of essays on black short stories written between 1998 and 1976 It aims to say something about the black short story as a genre and the development of the racial situation in America as well The primary aim is to introduce the reader to this long neglected genre of black fiction In contrast to the black novel the short story has hardly been given extensive criticism let alone serious attention The individual essays of this collection aim at presenting new points of critical orientation in the hope of reviving and fostering further discussions They provide a variety of approaches and a great diversity of critical points of view *The Iconography of Malcolm X* Graeme Abernethy, 2013-08-16 From Detroit Red to El Hajj Malik El Shabazz the man best known as Malcolm X restlessly redefined himself throughout a controversial life His transformations have appeared repeatedly in books photographs paintings and films while his murder set in motion a series of tugs of war among journalists biographers artists and his ideological champions over the interpretation of his cultural meaning This book marks the first systematic examination of the images generated by this iconic cultural figure images readily found on everything from T shirts and hip hop album covers to coffee mugs Graeme Abernethy captures both the multiplicity and global import of a person who has been framed as both villain and hero cast by mainstream media during his lifetime as the most feared man in American history and elevated at his death as a heroic emblem of African American identity As Abernethy shows the resulting

iconography of Malcolm X has shifted as profoundly as the American racial landscape itself Abernethy explores Malcolm's visual prominence in the eras of civil rights Black Power and hip hop He analyzes this enigmatic figure's representation across a variety of media from 1960s magazines to urban murals tracking the evolution of Malcolm's iconography from his autobiography and its radical milieu through the appearance of Spike Lee's 1992 biopic and beyond Its remarkable gallery of illustrations includes reproductions of iconic photographs by Richard Avedon Eve Arnold Gordon Parks Henri Cartier Bresson and John Launois Abernethy reveals that Malcolm X himself was keenly aware of the power of imagery to redefine identity and worked tirelessly to shape how he was represented to the public His theoretical grasp of what he termed the science of imagery enabled him both to analyze the role of representation in ideological control as well as to exploit his own image in the interests of black empowerment This provocative work marks a startling shift from the biographical focus that has dominated Malcolm X studies providing an up to date and comprehensively illustrated account of Malcolm's cultural afterlife and addressing his iconography in relation to images of other major African American figures including Martin Luther King Jr Angela Davis Kanye West and Barack Obama Analyzing the competing interpretations behind so many images Abernethy reveals what our lasting obsession with Malcolm X says about American culture over the last five decades *Dante's*
