Taal Kuldig Beschouwd:

The Semantics of Generics in Dutch and Related Languages Albert M. Oosterhof, 2008-04-25 This monograph is a comprehensive study of the various ways in which genericity can be expressed in Dutch dialects of Dutch and languages related to Dutch On the basis of empirical corpus and questionnaire based data a wide range of topics are discussed which have been addressed in the literature on the semantics and pragmatics of generics The empirical data presented in this book shed new light on issues crucial to the study of genericity A number of widely accepted ideas are shown to be problematic For example arguments are presented against the well known claim that progressive forms typically exclude characterizing interpretations Furthermore the author shows that speakers do not agree in their judgements of the acceptability of bare plurals as well as other noun phrase types in generic contexts Such data are a problem for the influential thesis that bare plurals refer to kinds unambiguously

Derivation and Explanation in the Minimalist Program Samuel Epstein, T. D. Seely, 2008-04-15 Derivation and Explanation in the Minimalist Program presents accessible cutting edge research on an enduring and fundamental question confronting all linguistic inquiry the respective roles of derivation and representation Presents accessible cutting edge research on the respective roles of derivation and representation in syntactic inquiry Discusses a wide range of phenomena and also includes alternative representational perspectives Features papers by M Brody C Collins S Epstein J Frampton S Gutmann N Hornstein R Kayne H Kitahara J McCloskey N Richards D Seely E Torrego J Uriagereka C J W Zwart

Case, Semantic Roles, and Grammatical Relations Petra Campe, 1994-01-01 This is the first of a series of 6 books dealing with case phenomena in different languages both Indo and non Indo European resulting from work by a team of 20 specialists at the University of Leuven It is the first time such a large scale investigation into case has been undertaken and a remarkable feature of the project is the use of computer corpora of authentic material This bibliography presents the many dimensions involved in research into case and case related phenomena This includes not only morphological case markers but also the crossconstituent semantic and grammatical relations expressed by morphological case or by its various counterparts morpho syntactic processes such as transitivity and passivization and pragmatic and textual considerations In addition the bibliography reflects the implications of case research for other disciplines such as foreign language teaching and artificial intelligence More than 6000 publications are listed An extensive Subject Index provides easy access to all the topics and major concepts covered A Language Index and a Guide to Languages Language Families conclude the book The other volumes in the series include The Dative 2 vols The Genitive The Nominative and Accusative and Non nuclear Cases

Geschiedenis van de Nederlandse syntaxis Joop van der Horst, Jan van der Horst, 2008

Structure Preserved C. Jan-Wouter Zwart, Mark de Vries, 2010 Structure is at the rock bottom of all explanatory sciences Jan Koster Forty years ago the hypothesis that underlying the bewildering variety of syntactic phenomena are general and unified structural patterns of unexpected beauty and simplicity gave rise to major advancements in the study of

Dutch and Germanic syntax with important implications for the theory of grammar as a whole Jan Koster was one of the central figures in this development and he has continued to explore the structure preserving hypothesis throughout his illustrious career This collection of articles by over forty syntacticians celebrates the advancements made in the study of syntax over the past forty years reflecting on the structural principles underlying syntactic phenomena and emulating the approach to syntactic analysis embodied in Jan Koster's teaching and research

The Latin Dialect of the Ager Faliscus Gabriël C. L. M. Bakkum, 2009 Annotation Although the Ager Faliscus lay between the areas where Etruscan Latin and Sabellic languages were spoken the inscriptions from the area from before c 150 bce show that it used a speech of its own known as Faliscan Most scholars agree that Faliscan is linguistically very close to Latin but the hypothesis that it is in fact a Latin dialect has not been the subject of a major publication until now In this work the linguistic data on Faliscan provided by the inscriptions are analyzed and compared to the languages of the surrounding areas Sociolinguistic aspects such as language contact and local identity are discussed as well The main conclusion is that Faliscan can indeed be regarded as a dialect of Latin The work includes a re edition of all inscriptions in many cases based on autopsy This title can be previewed in Google Books <http://books.google.com/books/vid/ISBN9789056295622>
