Bibliography of Art and Architecture in the Islamic World (2 vols.) Susan Sinclair, 2012-04-03 Following the tradition and style of the acclaimed Index Islamicus the editors have created this new Bibliography of Art and Architecture in the Islamic World The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies **Mamluks and Ottomans**

David J Wasserstein, Ami Ayalon, 2013-06-17 Focusing on Near Eastern history in Mamluk and Ottoman times this book dedicated to Michael Winter stresses elements of variety and continuity in the history of the Near East an area of study which has traditionally attracted little attention from Islamists Ranging over the period from the thirteenth to the nineteenth century the articles in this book look at the area from Istanbul down through Syria and Palestine to Arabia the Yemen and the Sudan The articles demonstrate the great wealth of the materials available in a wide variety of languages from archival documents to manuscripts and art works as well as inscriptions and buildings police records and divorce documentation The topics covered are equally as varied and include Dufism the festival of Nabi Musa military organisations doctors and charity to name but a few Creativity and Conservatism: An Investigation into the Formation of Saudi Female Artistic Identity

Fatemah Abdullah Alqahtani, 2024-07-31 This book investigates the formation of Saudi female artistic identity within the context of religious and social values and customs It proposes a theory about the uniqueness of this identity in terms of how Saudi female artists push the boundaries of creativity in a conservative culture The book explores the influence of two main factors Islamic doctrines and sociocultural norms It examines how these factors relate to the temporal and spatial limitations placed on artists From a faith based perspective it analyses the ambivalent relationship between some Muslim scholars thoughts and the concept of creativity and how this ambivalence can be overcome The book also examines the intellectual and cultural factors that have shaped Saudis collective mindset about the arts incorporating significant events in Saudi history and their impact on artistic practice If you have questions about what factors shape female Saudi artistic identity or how these artists are challenging norms of representation this book helps uncover the answers , **RIJAL AT THE STROKE OF A BRUSH**

RIJAL AU FIL DU PINCEAU Thierry Mauger, 2020-10-12 Symboliquement mi-pente entre la zone côtière de la mer Rouge et les hauts plateaux du sud-ouest de l'Arabie Saoudite se trouve le village de Rijal. L'anthropologue Thierry Mauger a mis en lumière une part d'ombre de l'imaginaire collectif de ce village en explorant dans toutes ses splendeurs l'art mural exceptionnel exercé par les femmes. L'artiste peintre Magali Jeantelot quant à elle a manifesté son talent en ressuscitant cet art et en le sublimant. Les deux volets traditionnel et moderne se regardent se répondent et s'enchangent pour ne former finalement qu'une seule et même œuvre. L'unité sans l'uniformité.
