Fastorum libri sex Ovid,2015-03-05 This 1929 five volume edition of Ovid's unfinished *Fasti* offers text English translation and a detailed commentary with illustrations *The God Who Is* Hans Schwarz,2011-01-01 Who is the God in whom Christians believe Is he just a figment of the human mind as critics of religion claimed in the nineteenth century and as crusading atheists assert again today Since the beginnings of rational thought the brightest minds among humanity have attempted to assert that God does indeed exist But even the so called proofs for God's existence always started with the assumption that there is someone to prove As soon as we move beyond that which is within space and time mere proofs or disproofs no longer suffice Both believers and unbelievers live to a certain degree by faith Yet religion is inextricably connected with human history When we journey through the landscape of religion and witness its gradual unfolding we soon realize that not all religions are equal Though they may be witnesses of the same God the way they talk about God is so different that this not only leads to very different concepts of God but also to different approaches to life on this earth At the end of this long journey we finally arrive at the Judeo Christian tradition which witnesses to the God in whom Christians believe This book seeks to show how this belief matured and what difference this belief still makes today *Rossel Island* W. E. Armstrong,1928 First published in 1928 this volume provides a study of tribal culture on Rossel Island otherwise known as Yela the easternmost island in the Louisiade Archipelago in what is now Papua New Guinea The material used was collected by the author during a two month stay on the island in 1921 whilst holding the position of Assistant Anthropologist to the Papuan Government Although it was originally intended as a general survey the text devotes special attention to aspects of life on the island that had been insufficiently analysed in past studies a complicated network of social relationships and a monetary system It is also notable for containing an introduction by the renowned anthropological pioneer Alfred Cort Haddon 1855 1940 along with numerous illustrative figures This is a fascinating book that will be of value to anyone with an interest in the history of anthropology and Melanesian cultures **Cult and conscience** Jacob Milgrom,2023-08-21

Avey,2019-11-15

Unpacking of the dynamics of conflict under conditions of nuclear monopoly Paul C Avey argues in **Tempting Fate** that the costs and benefits of using nuclear weapons create openings that weak nonnuclear actors can exploit Avey uses four case studies to show the key strategies available to nonnuclear states Iraqi decision making under Saddam Hussein in confrontations with the United States Egyptian leaders thinking about the Israeli nuclear arsenal during wars in 1969 70 and 1973 Chinese confrontations with the United States in 1950 1954 and 1958 and a dispute that never escalated to war the Soviet United States tensions between 1946 and 1948 that culminated in the Berlin Blockade Strategies employed include limiting the scope of the conflict holding chemical and biological weapons in reserve seeking outside support and leveraging international non use norms Avey demonstrates clearly that nuclear weapons cast a definite but limited shadow and while the world continues to face various nuclear challenges understanding conflict in nuclear monopoly will remain a pressing
