Red Star over the Pacific, Second Edition Toshi Yoshihara, James Holmes, 2018-12-15 Combining a close knowledge of Asia and an ability to tap Chinese language sources with naval combat experience and expertise in sea power theory the authors assess how the rise of Chinese sea power will affect U S maritime strategy in Asia They argue that China has laid the groundwork for a sustained challenge to American primacy in maritime Asia and to defend this hypothesis they

look back to Alfred Thayer Mahan's sea power theories now popular with the Chinese. The book considers how strategic thought about the sea shapes Beijing's deliberations and compares China's geostrategic predicament to that of the Kaiser's Germany a century ago. It examines the Chinese navy's operational concepts, tactics and capabilities and appraises China's missile force. The authors conclude that China now presents a challenge to America's strategic position of such magnitude that Washington must compete in earnest. **Leadership Resources** Center for Creative Leadership, Greensboro, NC., 2000
