Tactile Values Poems:

Tactile Values Mark Scott,2000 In this volume of poetry Mark Scott writes of human feelings and human touch in poems about the deaths of two brothers and in poems of love and friendship **Excel Poetry Workbook Years 7-8** Derek Lewis,2006 Studies in the Lyric Poems of Friedrich Hebbel Albert Edward Gubelmann,1912 *Fundamentals of the Art of Poetry* Oscar Mandel,1998-04-01 Fundamentals of the Art of Poetry takes the reader on a journey that sets out with a consideration of the various arts humankind has created and then focuses on the special art of poetry what poetry is what it does and must do in order to succeed for whom it does what it does and in detail how it goes about doing what it tries to do Twenty two chapters deal with subjects like The Constituencies for Art What Meaning Means Acceptable and Unacceptable Propositions The Right Word in the Right Place The Sounds that Matter in Poetry Energetic Metaphor the Major Figure and so on including an eloquent epilogue Touching Genius Writing with great brio and tough minded lucidity the Belgo American poet dramatist scholar and essayist examines a host of concepts concerning the arts in general and poetry in particular This highly original Ars poetica will be of interest to general readers college students poets curious about their own metier and last but not least literary critics and theorists who will encounter many a discreet challenge to current ideas in its pages

Poetry, Publishing, and Visual Culture from Late Modernism to the Twenty-first Century Natalie Pollard,2020-05-27 This is a book about contemporary literary and artistic entanglements word and image media and materiality inscription and illustration It proposes a vulnerable fugitive mode of reading poetry which defies disciplinary categorisations embracing the open endedness and provisionality of forms This manifests itself interactively in the six case studies which have been chosen for their distinctness and diversity across the long twentieth century the book begins with the early twentieth century work of writer and artist Djuna Barnes exploring her re animation of sculptural and dramatic sources It then turns to the late modernist artist and poet David Jones considering his use of the graphic and plastic arts in The Anathemata and next to the underappreciated mid century poet F T Prince whose work uncannily re activates Michelangelo s poetry and sculpture The second half of the book explores the collaborations of the canonical poet Ted Hughes with the publisher and artist Leonard Baskin during the 1970s the innovative late twentieth century poetry of Denise Riley who uses page space and embodied sound as a form of address and finally the contemporary poet Paul Muldoon who has collaborated with photographers and artists as well as ventriloquising nonhuman phenomena The resulting unique study offers contemporary writers and readers a new understanding of literary artistic and nonhuman practices and shows the cultural importance of engaging with their messy co dependencies The book challenges critical methodologies that make a sharp division between the textual work and the extra literary and raises urgent questions about the status and autonomy of art and its social role **Poems without Irony** Alex Wong,2016-11-15 Poems without Irony is Alex Wong s first collection In subject tone and form it ranges widely The book as a whole does not address any one particular theme but much of it is

concerned with the experience of particularity with the bounds of moral calculation and with the need for precision of thought and of speech as an aim or obligation Tensions between the natural and the artificial intention and expression good faith and bad are recurrently felt as the poems negotiate their various kinds of ambivalence The style is governed by a desire for simplicity almost equal to the lure of extravagance and by the tendency of its subtly differentiated voices towards an elusive playfulness in the face of serious matters The poems are designed to be read aloud or at least using the mouth Wong's patient and sympathetic listening to the sounds of English poetry in all periods has enriched the patterns of his own The poems therefore enfold many memories of earlier styles revived or still vital but also gaining new tonal energy in a functional strangeness

Adrienne Rich's Later Poetry Alec Marsh, 2024-12-12 Reorienting understandings of Adrienne Rich's later work through her interest in Marx and Marxist politics this book engages with this overlooked part of her oeuvre through considerations of issues such as race nationhood and gender From 1983 onward after she visited revolutionary Nicaragua until the end of her life Rich's political vision can best be described as Marxist Humanist Until recently very little attention has been paid to Rich's interest in Marx there is no in depth treatment of the effect of Marx's humanistic philosophy on Rich's later work or even on her unwavering but altered dedication to Women's Liberation This book fills this gap showing how Rich's discovery of Marx's humanism affected her poetry In doing so it makes a significant intervention into debates about the direction of American poetics and argues powerfully for a greater consciousness of political engagement through poetry

Later Poems Adrienne Rich, 2013 Presents a selection of poetry that draws from twelve volumes of the late author's published work as well as a manuscript posthumously left behind

The Imaginal Reaction to Poetry June Etta Downey, 1911

Selected Poems and Related Prose Filippo Tommaso Marinetti, Luce Marinetti, 2002-01-01 In which Marinetti used the language of machines and explosions to express his view of poetry as reportage from the front Words in Freedom in which he declared war on poetry by destroying syntax and spelling and by experimenting with typography and finally love poems to his wife Benedetta in which he returned in part to subjects and forms that he had previously rejected

Through the Poet's Eye Bozena Shallcross, 2009-02-20 Though best known as poets Adam Zagajewski born 1945 Zbigniew Herbert 1924-98 and Joseph Brodsky 1940-96 wrote some of the most original prose of this century It is this prose remarkable for its cross cultural complexity and interdisciplinary richness that concerns Bozena Shallcross in Through the Poet's Eye The travels undertaken by these Eastern European poets who each journeyed to the West under different circumstances give Shallcross her point of departure as she explores the connections between the sensory experience of travel and the revelatory perception of the visual arts manifest in their writings Book Jacket

Poetry Harriet Monroe, 1919

The Cambridge Companion to American Poets Mark Richardson, 2015-10-15 This Companion brings together essays on some fifty four American poets from Anne Bradstreet to contemporary performance poetry This book also examines such movements in American poetry as modernism the Harlem or New Negro Renaissance confessional poetry the Black Mountain

School the New York School the Beats and L A N G U A G E poetry **Cubism, Stieglitz, and the Early Poetry of William Carlos Williams** Bram Dijkstra,2020-07-21 Previous studies of William Carlos Williams have tended to look only for the literary echoes in his verse According to Bram Dijkstra the new movements in the visual arts during the 1920s affected Williams s work as much as if not more than the new writing of the period Dijkstra catches the excitement of this period of revolutionary art reveals the interactions between writers and painters and shows in particular the specific and general impact this world had on Williams s early writings **Poetry, Painting and Ideas, 1885-1914** Alan Robinson,1985-06-18

Lyric Poem and Aestheticism Marion Thain,2016-08-16 This study explores lyric poetry s response to a crisis of relevance in Victorian Modernity offering an analysis of literature usually elided by studies of the modern formation of the genre and uncovering previously unrecognized discourses within it Setting the focal aestheticist poetry c 1860 to 1914 within much broader historical theoretical and aesthetic frames it speaks to those interested in Victorian and modernist literature and culture but also to a burgeoning audience of the new lyric studies The six case studies introduce fresh poetic voices as well as giving innovative analyses of canonical writers such as D G Rossetti Ezra Pound A C Swinburne *The Early Poetry of Robert Graves* Frank L. Kersnowski,2013-11-06 Like many men of his generation poet Robert Graves was indelibly marked by his experience of trench warfare in World War I The horrific battles in which he fought and his guilt over surviving when so many perished left Graves shell shocked and disoriented desperately seeking a way to bridge the rupture between his conventional upbringing and the uncertainties of postwar British society In this study of Graves s early poetry Frank Kersnowski explores how his war neurosis opened a door into the unconscious for Graves and led him to reject the essential components of the Western idea of reality reason and predictability In particular Kersnowski traces the emergence in Graves s early poems of a figure he later called The White Goddess a being at once terrifying and glorious who sustains life and inspires poetry Drawing on interviews with Graves s family as well as unpublished correspondence and drafts of poems Kersnowski argues that Graves actually experienced the White Goddess as a real being and that his life as a poet was driven by the purpose of celebrating and explaining this deity and her matriarchy **Sustainable Poetry** Leonard M. Scigaj,2021-12-15 Focusing on the work of A R Ammons Wendell Berry W S Merwin and Gary Snyder author Leonard Scigaj shows that just as a sustainable society does not depreciate its resource base so a sustainable poetry does not restrict interest to language Over the past thirty years many poets have shown an increasing sensitivity to ecological thinking But critics trained in poststructuralist language theory often fail to explore the substance of ecopoetry Scigaj is the first to define ecopoetry as separate and distinct from nature or environmental poetry marked by its concern with balancing the interests of human beings with the needs of nature Just as science learned that the earth was not the center of the universe ecopoetry insists on the recognition that humans are not at the center of the natural world **Comparative Criticism: Volume 21, Myth and Mythologies** E. S. Shaffer,2000-02-24 Comparative Criticism addresses itself to the questions of literary theory

and criticism to comparative studies in terms of theme genre movement and influence and to interdisciplinary perspectives This new volume takes Myth and mythologies as its central theme Articles include the Shadow of Ulysses beyond 2001 Genesis a tale of a heel and a hip Myths of High and Low the Lyrical Ballads 1798 1998 and Myths of the Indies Jane Austen and the British Empire The winning entries in the 1997 8 BCLA BCLT translation competition are published as well as a special bibliography on the works of H G Adler *Collected Poems: 1950-2012* Adrienne Rich, 2016-06-21 The collected works of Adrienne Rich whose poetry is distinguished by an unswerving progressive vision and a dazzling empathic ferocity New York Times A Finalist for the 2017 Pulitzer Prize in Poetry Adrienne Rich was the singular voice of her generation and one of our most important American poets She brought discussions of gender race and class to the forefront of poetical discourse pushing formal boundaries and consistently examining both self and society This collected volume traces the evolution of her poetry from her earliest work which was formally exact and decorous to her later work which became increasingly radical in both its free verse form and feminist and political content The entire body of her poetry is on display in this vast volume including the National Book Award winning *Diving Into the Wreck* and her prize winning *Atlas of the Difficult World* The *Collected Poems* of Adrienne Rich gathers and memorializes all of her boldly political formally ambitious thoughtful and lucid work the whole of which makes her one of the most prolific and influential poets of our time
