Regulating Code Ian Brown, Christopher T. Marsden, 2003-08-15 The case for a smarter prosumer law approach to Internet regulation that would better protect online innovation public safety and fundamental democratic rights Internet use has become ubiquitous in the past two decades but governments legislators and their regulatory agencies have struggled to keep up with the rapidly changing Internet technologies and uses In this groundbreaking collaboration regulatory lawyer Christopher Marsden and computer scientist Ian Brown analyze the regulatory shaping of code the technological environment of the Internet to achieve more economically efficient and socially just regulation They examine five hard cases that illustrate the regulatory crisis privacy and data protection copyright and creativity incentives censorship social networks and user generated content and net neutrality The authors describe the increasing multistakeholderization of Internet governance in which user groups argue for representation in the closed business government dialogue seeking to bring in both rights based and technologically expert perspectives Brown and Marsden draw out lessons for better future regulation from the regulatory and interoperability

failures illustrated by the five cases They conclude that governments users and better functioning markets need a smarter prosumer law approach Prosumer law would be designed to enhance the competitive production of public goods including innovation public safety and fundamental democratic rights *Forbes* ,2003 The Human Paradox Frank Gaffikin,2023-06-16 In *The Human Paradox* Worlds Apart in a Connected World author Frank Gaffikin probes widely and meticulously into our past and present to analyse the connections between the many acute polarisations that mark contemporary times Addressing profound issues related to Trumpism Brexit the outbreak of Covid 19 and ensuing pandemic and environmental change the book argues that beneath all the present social tumult lies a fundamental dilemma for human stability and progress namely how we can be estranged from what we refer to as humanity The book begins with an appraisal of populism and authoritarian nationalism and later explores whether in our human development we are bound for enhancement or extinction Interrogating these big ideas further the book identifies three central challenges that confront us as a society living on the planet living with the planet and living with one another on the planet These challenges prompt a re think of what it is to be human and social and hinging on these key themes the book thus concludes with consideration of a radical agenda for future social improvement Rather than peering through the conventional lenses offered by separate disciplines this book argues for interdisciplinary appreciation and recognition especially so if we are to address the dilemma at the center of its concern *The Human Paradox* will appeal to readers interested in the major conflicts of our times as well as students of subjects including sociology politics history and economics The New York Times Index ,2009 *New York Magazine* ,1997-01-20 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
