Take Care of Yourself Donald M. Vickery,1986      *Take Care of Yourself* Donald M. Vickery,1979      Current Catalog  
National Library of Medicine (U.S.),1979 First multi year cumulation covers six years 1965 70      Common Dilemmas in  
Family Medicine John Fry,2012-12-06 One of the eXCltmg challenges of medicine has been the reaching of decisions based  
on less than complete evidence As undergraduates in teaching hospitals future physicians are taught to think in clear and  
absolute black and white terms Diagnoses in teaching hospitals all are based on supportive positive findings of in vestigations  
Treatment follows logically on precise diagnosis When patients die the causes of death are confirmed at autopsy How very  
different is real life in clinical practice and particularly in family medicine By the very nature of the common conditions that  
present diagnoses tend to be imprecise and based on clinical assessment and interpretation Much of the management and  
treatment of patients is based on opinions of individual physicians based on their personal expenences Because of the  
relative professional isolation offamily physicians within their own practices not unexpectedly divergent views and opinions  
are formed There is nothing wrong in such divergencies because there are no clear absolute black and white decisions  
General family practice functions in grey areas of medicine where it is possible and quite correct to hold polarized distinct  
opinions The essence of good care must be eternal flexibility and readiness to change long held cherished opinions To  
demonstrate that with many issues in family medicine it is possible to have more than one view I selected 10 clinical and II
