The Hungarian Sea:

The Hungarian Sea Hollace Lee Gruhn, 2004 The theme all is connected runs through these crisply crafted poems as the author explores the connections between the natural world humanity and their interwoven histories **The Hungarians** Paul Lendvai, 2004-08-08 The Hungarians is the most comprehensive clear sighted and absorbing history ever of a legendarily proud and passionate but lonely people Much of Europe once knew them as child devouring cannibals and bloodthirsty Huns But it wasn't long before the Hungarians became steadfast defenders of the Christian West and fought heroic freedom struggles against the Tatars 1241 the Turks 16 18th centuries and among others the Russians 1848 49 and 1956 Paul Lendvai tells the fascinating story of how the Hungarians despite a string of catastrophes and their linguistic and cultural isolation have survived as a nation state for more than 1 000 years Lendvai who fled Hungary in 1957 traces Hungarian politics culture economics and emotions from the Magyars dramatic entry into the Carpathian Basin in 896 to the brink of the post Cold War era Hungarians are ever pondering what being Hungarian means and where they came from Yet argues Lendvai Hungarian national identity is not only about ancestry or language but also an emotional sense of belonging Hungary's famous poet patriot Sándor Petöfi was of Slovak descent and Franz Liszt felt deeply Hungarian though he spoke only a few words of Hungarian Through colorful anecdotes of heroes and traitors victors and victims geniuses and imposters based in part on original archival research Lendvai conveys the multifaceted interplay on the grand stage of Hungarian history of progressivism and economic modernization versus intolerance and narrow minded nationalism He movingly describes the national trauma inflicted by the transfer of the historic Hungarian heartland of Transylvania to Romania under the terms of the Treaty of Trianon in 1920 a trauma that the passing of years has by no means lessened The horrors of Nazi and Soviet Communist domination were no less appalling as Lendvai's restrained account makes clear but are now part of history An unforgettable blend of eminent readability vibrant humor and meticulous scholarship The Hungarians is a book without taboos or prejudices that at the same time offers an authoritative key to understanding how and why this isolated corner of Europe produced such a galaxy of great scientists artists and entrepreneurs *Translations on the Law of the Sea* United States. Joint Publications Research Service, 1974 Baltic-Black Sea Regionalisms Olga Bogdanova, Andrey Makarychev, 2019-10-01 This edited volume focuses on various forms of regionalism and neighborhoods in the Baltic Black Sea area In the light of current reshaping of borderlands and new geopolitical and military confrontations in Europe's eastern margins such as the annexation of Crimea and the war in Donbas this book analyzes different types and modalities of regional integration and region making from a comparative perspective It conceptualizes cooperative and conflictual encounters as a series of networks and patchworks that differently link and relate major actors to each other and thus shape these interconnections as domains of inclusion and exclusion bordering and debordering securitization and desecuritization This peculiar combination of geopolitics ethnopolitics and biopolitics makes the Baltic Black Sea trans national region a

source of inspiring policy practices and in the light of new security risks a matter of increased concern all over Europe The contributors from various disciplines cover topics such as cultural and civilizational spaces of belonging and identity politics the rise of right wing populism region building under the condition of multiple security pressures and the influence and regional strategies of different external powers including the EU Russia and Turkey on cross and trans regional relations in the area

history of the land people society culture and economy of Hungary from its nebulous origins in the Ural Mountains to the elections of 1988 It tells above all the thrilling story of a people which became a great power in the region and then fought against and was invaded by Ottomans Germans and Soviets The Hungarian people preserved nevertheless a continuous individuality through its Ural born language and a specifically Hungaro European culture Dominated from the sixteenth century by the Habsburgs while ruling its own national minorities Hungary was deprived of two thirds of its lands and peoples through successive treaties which followed the two World Wars after which it fell under Soviet domination for nearly fifty years Free and independent since 1990 Hungary continues to seek its rightful position in Europe **Handbooks**

Hungarians Enikő Csukovits,2020-09-14T17:35:00+02:00 During the Middle Ages the majority of people in Western Europe never met any Hungarians They didn t even hear about them as news about Hungary only reached Western Europe in times of extraordinary historical events such as the adoption of Christianity at the turn of the 11th century or the devastating Tatar invasion in 1241 1242 Obtaining information about the Hungarians from books was also difficult as medieval Europe even as late as in the 15th 16th centuries lacked libraries that would have offered greater numbers of works on Hungary or on Hungarian topics On top of it all works that contained the most detailed and accurate information remained unknown in their own period posterity only found them in rare manuscript copies discovered much later Yet once collected we find that these sources originating from distant parts of the continent and written for different purposes contain information about Hungary

and the Hungarians that most often reaffirm one another This work examines these sources and sets out to answer four major questions What did people in medieval Western Europe know think and believe about the Hungarians and Hungary To what degree was this knowledge constant or fluid over the centuries that made up the medieval era and were changes in knowledge followed by any changes in appreciation Where was the country located in the hierarchy of European countries on the basis of the knowledge suppositions and beliefs relating to it What were the most important elements in this image of the Hungarians and of Hungary and which of them became the most enduring stereotypes
