## **The Hungry Years The Story Of The Great American Depression:**

**The Hungry Years** T. H. Watkins,2000-09 Draws from oral histories memoirs local newspaper reports and scholarly texts to tell the story of America s Great Depression in the words of people who lived through it The Hungry Years Adrian A. Paradis,1967 The author describes the land speculation the spiraling of the stock market prices and the boom preceding the Depression He considers the march on Washington the banking and farm crises and the problems of unemployment Finally he explores the causes of the Depression Hoover s and Roosevelt s policies the major issues of the New Deal and our debt to those years Years of Dust Albert Marrin,2012-10-11 In the 1930 s great rolling walls of dust swept across the

Great Plains The storms buried crops blinded animals and suffocated children It was a catastrophe that would change the course of American history as people struggled to survive in this hostile environment or took the the roads as Dust Bowl refugees Here in riveting accessible prose and illustrated with moving historical quotations and photographs acclaimed historian Albert Marrin explains the causes behind the disaster and investigates the Dust Bowl s imact on the land and the people Both a tale of natural destruction and a tribute to those who refused to give up this is a beautiful exploration of an important time in our country s past **The Stock Market Crash of 1929** Brenda Lange,2007 On October 29 1929 more

than 16 million stock shares were sold at the New York Stock Exchange and by the end of November investors had lost more than 100 billion in assets This book looks at the events that helped usher one of the grimmest periods in American history

**America Between the Wars, 1919-1941** David Welky,2012-01-17 This collection situates over seventy essential primary documents in their historical context to illustrate the American experience during the interwar era 1919 1941 Introduces a broad range of cultural and historical topics from race and the role of women to trends in literature and the Great Depression Includes a range of photographs and illustrations End of chapter questions encourage critical thinking and analysis while a bibliography prepares students for further research **Defender of the Underdog** Harvey

Ferguson,2023-10 In 1932 the worst year of the Great Depression more than twenty thousand mostly homeless World War I veterans trekked to the nation s capital to petition Congress to grant them early payment of a promised bonus The Hoover Administration and the local government urged Washington DC police chief Pelham Glassford to forcefully drive this bonus army out of the city Instead he defied both governments for months and found food and shelter for the veterans until Congress voted on their request Glassford s efforts to persuade federal and local officials to deal sympathetically with the protesters were ultimately in vain but his proposed solutions though disregarded by his supervisors demonstrate that compassion and empathy could be more effective ways of dealing with radical protests than violent suppression **1967**

**Annual Supplement** John B. Simeone,Alfred de Grazia,Carl E. Martinson,2013-12-01 **California on the Breadlines** Jan Goggans,2010-07-20 California on the Breadlines is the compelling account of how Dorothea Lange the Great Depression s most famous photographer and Paul Taylor her labor economist husband forged a relationship that was private they both

*A Companion to California History* William Devereaux, David Igler, 2014-01-28 This volume of original essays by leading scholars is an innovative thorough introduction to the history and culture of California Includes 30 essays by leading scholars in the field Essays range widely across perspectives including political social economic and environmental history Essays with similar approaches are paired and grouped to work as individual pieces and as companions to each other throughout the text Produced in association with the Huntington USC Institute on California and the West

*Women on Their Own* Rudolph Bell, Virginia Yans, 2007-12-06 Despite what would seem some apparent likenesses single men and single women are perceived in very different ways Bachelors are rarely considered lonely or aberrant They are not pitied Rather they are seen as having chosen to be footloose and fancy free to have sports cars boats and enjoy a series of unrestrictive relationships Single women however do not enjoy such an esteemed reputation Instead they have been viewed as abnormal neurotic or simply undesirable attitudes that result in part from the long standing belief that single women would not have chosen her life Even the single career woman is seldom viewed as enjoying the success she has achieved No one believes she is truly fulfilled Modern American culture has raised generations of women who believed that their true and most important role in society was to get married and have children Anything short of this role was considered abnormal unfulfilling and suspect This female stereotype has been exploited and perpetuated by some key films in the late 40's and early 50's But more recently we have seen a shift in the cultural view of the spinster The erosion of the traditional nuclear family as well as a larger range of acceptable life choices has caused our perceptions of unmarried women to change The film industry has reflected this shift with updated stereotypes that depict this cultural trend The shift in the way we perceive spinsters is the subject of current academic research which shows that a person's perception of particular societal roles influences the amount of stress or

depression they experience when in that specific role Further although the way our culture perceives spinsters and the way the film industry portrays them may be evolving we still are still left with a negative stereotype Themes of choice and power have informed the lives of single women in all times and places When considered at all in a scholarly context single women have often been portrayed as victims unhappily subjected to forces beyond their control This collection of essays about women on their own attempts to correct that bias by presenting a more complex view of single women in nineteenth and twentieth century United States and Europe Topics covered in this book include the complex and ambiguous roles that society assigns to widows and the greater social and financial independence that widows have often enjoyed widow culture after major wars the plight of homeless middle class single women during the Great Depression and comparative sociological studies of contemporary single women in the United States Britain Ireland and Cuba Composed of papers presented to the Rutgers Center for Historical Analysis project on single women this collection incorporates the work of specialists in anthropology art history history and sociology It is deeply connected with the emerging field of singleness studies to which the RCHA has contributed an Internet based bibliography of more than 800 items All of the essays are new and have not been previously published

*Public Enemies* Bryan Burrough, 2009-04-01 Analyzes Depression era bank robbery and its most notorious figures discussing the factors that influenced the period s crime rates the formation and early work of the FBI and the contributions of J Edgar Hoover

*The Mayor of Shantytown* Richard Gazarik, 2019-02-15 Father James R Cox became the voice of Pittsburgh s poor and jobless during the worst years of the Great Depression Long lines of needy people were showing up daily at St Patrick s Church in the city s historic Strip District but Cox turned no one away He served more than two million meals to the hungry and was the mayor of a shantytown of homeless men In 1932 Cox led one of the first mass marches on Washington D C confronting President Herbert Hoover in a face to face White House meeting He later ran for president himself on the Jobless Party ticket a quixotic campaign that ended in the deserts of New Mexico Father Cox s reputation as a humanitarian was ruined after he barely escaped a mail fraud conviction for running a rigged fundraising contest

[The Columbia Companion to American History on Film](#) Peter C. Rollins, 2004-03-24 American history has always been an irresistible source of inspiration for filmmakers and today for good or ill most Americans sense of the past likely comes more from Hollywood than from the works of historians In important films such as *The Birth of a Nation* 1915 *Roots* 1977 *Apocalypse Now* 1979 and *Saving Private Ryan* 1998 how much is entertainment and how much is rooted in historical fact In *The Columbia Companion to American History on Film* more than seventy scholars consider the gap between history and Hollywood They examine how filmmakers have presented and interpreted the most important events topics eras and figures in the American past often comparing the film versions of events with the interpretations of the best historians who have explored the topic Divided into eight broad categories Eras Wars and Other Major Events Notable People Groups Institutions and Movements Places Themes and Topics and Myths and Heroes the volume features extensive cross references

a filmography of discussed and relevant films notes and a bibliography of selected historical works on each subject The Columbia Companion to American History on Film is also an important resource for teachers with extensive information for research or for course development appropriate for both high school and college students Though each essay reflects the unique body of film and print works covering the subject at hand every essay addresses several fundamental questions What are the key films on this topic What sources did the filmmaker use and how did the film deviate or remain true to its sources How have film interpretations of a particular historical topic changed and what sorts of factors technological social political historiographical have affected their evolution Have filmmakers altered the historical record with a view to enhancing drama or to enhance the truth of their putative message *American Stories: From 1865* Jason Ripper, 2008 Suitable for an introductory American history instructor who wants to make the subject more appealing this book focuses on personalized history presented through biographies of famous and less well known figures from 1865 *Building the Compensatory State* Robert F. Durant, 2019-09-24 Contemporary public administration research has marginalized the importance of taking history seriously With few exceptions little recent scholarship in the field has looked longitudinally rather than cross sectionally contextually and theoretically over extended time periods at big questions in public administration One such big question involves the evolution of American administrative reform and its link since the nation's founding to American state building This book addresses this gap by analyzing administrative reform in unprecedented empirical and theoretical ways In taking a multidisciplinary approach it incorporates recent developments in cognate research fields in the humanities and social sciences that have been mostly ignored in public administration It thus challenges existing notions of the nature scope and power of the American state and with these important aspects of today's conventional wisdom in public administration Author Robert F Durant explores the administrative state in a new light as part of a compensatory state driven shaped and amplified since the nation's founding by a corporate social science nexus of interests Arguing that this nexus of interests has contributed to citizen estrangement in the United States he offers a broad empirical and theoretical understanding of the political economy of administrative reform its role in state building and its often paradoxical results Offering a reconsideration of conventional wisdom in public administration this book is required reading for all students scholars or practitioners of public administration public policy and politics **The 1930s** William H. Young, 2002-10-30 Most historical studies bury us in wars and politics paying scant attention to the everyday effects of pop culture Welcome to America's other history the arts activities common items and popular opinions that profoundly impacted our national way of life The twelve narrative chapters in this volume provide a textured look at everyday life youth and the many different sides of American culture during the 1930s Additional resources include a cost comparison of common goods and services a timeline of important events notes arranged by chapter an extensive bibliography for further reading and a subject index The dark cloud of the Depression shadowed most Americans' lives during the 1930s Books movies songs and stories of the 1930s gave

Americans something to hope for by depicting a world of luxury and money Major figures of the age included Fred Astaire and Ginger Rogers Irving Berlin Amelia Earhart Duke Ellington the Marx Brothers Margaret Mitchell Cole Porter Joe Louis Babe Ruth Shirley Temple and Frank Lloyd Wright Innovations in technology and travel hinted at a Utopian society just off the horizon group sports and activities gave the unemployed masses ways to spend their days and a powerful new demographic the American teenager suddenly found itself courted by advertisers and entertainers     The Buying of the Presidency? Si Sheppard,2014-10-14 This groundbreaking work tells the true story behind Franklin D Roosevelt s 1936 reelection drawing upon never before published personal files to expose a nexus of patronage and power that changed America forever FDR s 1936 reelection represented his greatest political triumph Yet the election remains largely unstudied despite the fact that critical decisions by some of the most colorful and controversial characters in American history make it one of the most significant ever to take place This landmark work the first specifically about the 1936 election highlights the key debates events and personalities that epitomized the conflicted highly charged politics of the New Deal era In telling its gripping tale the book discloses the secret history of Roosevelt s New Deal It uncovers the hidden roles that money patronage and power played in the campaign of 1936 underscoring the transition from the old school politics of stump speaking and glad handing to a new world of professionalism marked by scientific polling targeted advertising and direct media The book offers a new perspective on this critical period in American history through its use of previously unpublished private correspondence and internal memos from key players in the Roosevelt administration as well as from GOP chairman John Hamilton These archival sources detail the nuts and bolts of running a presidential campaign during the Great Depression and reveal how money was manipulated to buy votes Exposing the true story behind the making of modern America the book is a must read for anyone interested in FDR U S history politics or the presidency     *Guide to the Collections* National Library of Australia,
