The Ice Is Coming:

The Ice Age Challenge Rolf A. F. Witzsche, 2005-03-01 The Ice Age Challenge refers to the challenge that we face globally to create a new foundation for living when the coming Ice Age climate shuts down most of the world's agriculture possibly 100 to 150 years from now The novel is the first part of the second episode of the series The Lodging for the Rose an eight part science fantasy centered on universal love by Rolf A F Witzsche We truly are in a race against time the greatest race since the dawn of man racing to create the technologies economies finances politics and social cultures that enable us to shift agriculture into efficient indoor facilities in order to protect our food production in the coming Ice Age environment The Earth has been in an Ice Age for 1.8 million years interspersed by the occasional warm period like the present one that is ending in spite of global warming The necessary infrastructures for survival are technologically feasible but will we empower ourselves to create them That appears to be less certain It seems that we have been put in race without the skills for it But then don't we have the potential to be fast learners In the course of exploring the question the novel touches on the collapse of the Soviet Union the Aryan invasion in historic India the face of Islam the fascist holocaust depopulation global warming nuclear fusion power indoors agriculture and principles of marriage sex culture and science **Ice and Refrigeration**
