The Idea Of A United Europe:

The Idea of a United Europe J. Shahin, M. Wintle, 2000-07-14 The Idea of a United Europe examines the issues thrown up by the reintegration of Europe since 1989/90 through the primary perspective of European identity. Political economy here joins contemporary history. European studies specialists from Britain, Germany and the Netherlands review Europe's progress now that a decade has passed since the end of the Cold War. Differences within Europe and unifying factors are both assessed in the course of this quest to examine what Europe has become and is becoming at the turn of the millennium. *The Idea of Europe* Shane Weller, 2021-06-03 This book offers a new critical history of the idea of Europe from classical antiquity to the present day. *The Identity Factor in Chinese Relations with Europe* Bjørnar Sverdrup-Thygesen, 2024-12-26 This book offers a sustained historically grounded analysis of the identity factor in China-Europe relations. The identity of the modern Chinese state was forged in the context of European emissaries, gunboats and books. The effects still shape China's policies towards Europe today as it becomes a focal point in the great power competition between the US and China. The author argues that identity dilemmas are central to Chinese-Europe policies both past and present. This is reflected in the two-pronged composition of the book: one historical section combined and complemented with one contemporary section. Case studies of three key political flashpoints between the EU/individual European countries and China over the last two decades demonstrate the contemporary relevance of a set of identity issues whose deep roots are uncovered through analysing Chinese political texts from the preceding two centuries. Aimed primarily at scholars and students of Chinese and European international relations, this book will also be of interest to scholars of ontological security theory, constructivism and other identity-driven approaches to international politics. [The American Marshall Plan Film Campaign and the Europeans](#) Maria Fritzsche, 2018-02-08 The US government launched the European Recovery Programme, otherwise known as the Marshall Plan, in order to save war-torn Europe from collapse in 1948. Yet while much is known about the economic side of the Marshall Plan, the extensive film campaign that accompanied it has been largely overlooked until now. *The American Marshall Plan Film Campaign and the Europeans* is the first book to explore the use of the Marshall Plan films and, importantly, their distribution and reception across Europe. The study examines every available film, the 170 that remain from the 200 estimated to have been made, and looks at how they were designed to instil hope, argue the case for economic restructuring and persuade the Europeans of the superiority of the liberal capitalist system. The book goes on to reason that the films served as a powerful weapon in the cultural Cold War, but that the European audiences were by no means passive victims of the US propaganda effort. Maria Fritzsche discusses the Marshall Plan films in the context of countries across Western, Northern and Southern Europe, covering the majority of the 17 European countries that participated in the Plan in the process. The book incorporates 70 images and utilises a vast number of archival sources to explore the strategies the US adopted to sway the minds of the Europeans, the problems they encountered in the process, and not least the varied responses of the European

audiences It is a vital study for any scholar or student keen to know more about postwar recovery in Europe the legacy of the Second World War or America's relationship with Europe in the 20th century
