The Harmony of the Soul Neal O. Weiner, 1993-01-01 The Harmony of the Soul creates a naturalistic grounding for ethics and a moral grounding for psychotherapy It is an original and startling synthesis of the ideas of mental health and moral virtue based on neglected affinities between classical Greek ethics contemporary virtue ethics sociobiology and the basic presuppositions of psychotherapy A central thesis of the book is that we can assume the worst about what science tells us about the human animal without having to sacrifice any of the things that are of most importance to ethics virtue and the good life harmony of the soul freedom conscience and moral knowledge

migration of women's rhetorical accomplishments systematically To locate these women she follows the migration of the Western intellectual tradition from its inception in classical antiquity and its confrontation with and ultimate appropriation by evangelical Christianity to its force in the medieval Church and in Tudor arts and politics Glenn sets the scope of her study from antiquity to the Renaissance for several reasons not the least of which is that the Enlightenment saw the end of classical rhetoric as the dominant and most influential system of education and communication Equally important the Enlightenment brought about the demise of the one sex model of humanity that centered on the telos of perfect maleness with women and children being perceived as undeveloped men Glenn expands the history of rhetoric by including the contributions of women She is not writing a compensatory history or a history of rhetoric by women she is integrating the rhetorical accomplishments of women into the context of the male dominated and male documented rhetorical tradition and in the process enriching that tradition
