The Inbetween A Vision Of World Peace:

The In-Between People Girma Bekele, 2011-03-29 In the midst of partial competing and often hostile forms of human solidarity David Bosch challenged the church to be the Alternative Community called to live in the in between of various opposing socio political economic and ecclesiastical polarities Girma Bekele explores and renews that call in the context of Ethiopia Acute poverty and the lingering question of the balance between ethnic distinctiveness and national unity together constitute a two edged challenge to Christian identity Constructive dialogue that fosters unity is intrinsic to effective response to the plight of the poor This means a turning away from institutional self preservation towards a contextually relevant mission that crosses all human made frontiers Taking Ethiopia as the immediate context Dr Bekele offers important insight to the church in the majority world and beyond

The In-between Jack Meyer, 1992-01-01 The IN BETWEEN traces the development of consciousness then self consciousness from its earliest beginnings in primitive life to its complex manifestation in the late 20th century The central focus is to describe the tremendous force that is thinking as that thinking has gone about the task of building the world in which we live The consequence of this historical philosophical presentation is to be able to systematically describe the power of self responsibility as that power lies at the center of human reality The global possibility of this is of course world peace Not being prejudiced by the naturalistic bias of modern science the work is able to achieve insight from the perspective of a more encompassing attitude Expressed somewhat differently spanning the ages from the time of the man sitting by his fire considering his broken spear to the present time of opportunity global re consideration there is to be told the story of humanity coming to know itself of consciousness learning to expand beyond temporary limitations The possibility of peace is at the same time the opportunity in which to comprehend this expanse of humanity to an extent never before imagined But little is done without the person world peace becomes possible only when one has already found peace within oneself THE IN BETWEEN is an impassioned portrayal of human life from the point of view of the good is written with enthusiasm deep conviction Address orders to CSU Publications P O Box 11701 Green Bay WI 54307 1701 414 496 8764 available April 1992 22 00 cloth

ve ever wanted or will ever love *In-Between Fiction and Non-Fiction* Michelangelo Paganopoulos,2019-01-15 This volume invites the reader to join in with the recent focus on subjectivity and self reflection as the means of understanding and engaging with the social and historical changes in the world through storytelling It examines the symbiosis between anthropology and fiction on the one hand by looking at various ways in which the two fields co emerge in a fruitful manner and on the other by re examining their political aesthetic and social relevance to world history Following the intellectual crisis of the 1970s anthropology has been criticized for losing its ethnographic authority and vocation However as a consequence of this ethnographic scope has opened towards more subjective and self reflexive forms of knowledge and representations such as the crossing of the boundaries between autobiography and ethnography The collection of essays re introduces the importance of authorship in relationship to readership making a ground breaking move towards the study of fictional texts and images as cultural sociological and political reflections of the time and place in which they were produced In this way the contributors here contribute to the widening of the ethnographic scope of contemporary anthropology A number of the chapters were presented as papers in two conferences organised by the Association of Social Anthropologists of the UK and Commonwealth at Jawaharlal Nehru University New Delhi entitled Arts and aesthetics in a globalising world 2012 and at the University of Exeter entitled Symbiotic Anthropologies 2015 Each chapter offers a unique method of working in the grey area between and beyond the categories of fiction and non fiction while creatively reflecting upon current methodological ethical and theoretical issues in anthropology and cultural studies This is an important book for undergraduate and post graduate students of anthropology cultural and media studies art theory and creative writing as well as academic researchers in these fields *Vodou Visions* Sallie Ann Glassman,2014-08-30 This book introduces readers to Vodou s rich history powerful ancestors and vibrant spirits known as Lwa With more than one hundred breathtaking illustrations Vodou Visions reveals how to honor and invoke the Lwa with specific ceremonial offerings and litanies Using methods drawn from more than twenty years of practice Vodou priestess Sallie Ann Glassman shares purification and empowerment rituals for individuals communities homes and spiritual spaces *Critical Theory of International Politics* Steven C. Roach,2013-05-13 Critical international theory encompasses several distinct radical approaches that focus on identity difference hegemonic power and order As an applied theory critical international theory draws on critical social theories to shed light on international processes and global transformations While this approach has led to increasing interest in formulating an empirically relevant critical international theory it has also revealed the difficulties of applying critical theory to international politics What are these difficulties and problems And how can we move beyond them This book addresses these questions by investigating the intellectual currents and key debates of critical theory from Kant and Hegel to Habermas and Derrida and the recent work of critical international theory including Robert Cox and Andrew Linklater By drawing on these debates the book formulates an original theory of complementarity that brings together critical theory and

critical international theory It argues that complementarity a governing principle in international law and politics offers a conceptual framework for working toward two goals engaging the changing contexts and forms of resistance and redressing some of the difficulties of applying critical theory to international relations In adopting three critical perspectives on complementarity to analyze the evolving social and political contexts of global justice this book provides an essential resource for undergraduate and graduate students and scholars interested in the application of critical theory to international relations
