dedicated to autistic women who want to be mothers who are already mothers or who are reflecting on this possibility It is also an invitation to listen to family members professionals and educators who wish to understand the specific layers of this experience More than a manual it is a space for acceptance validation and guidance Each chapter was carefully written to offer practical knowledge deep reflections and above all a sense of belonging Here we talk about planning for motherhood with our feet on the ground about the impact of the diagnosis on the desire to be a mother about childbirth the postpartum period raising children the emotional bond and the constant struggle to balance giving with preserving one's identity We address without romanticizing the pains that emerge when sensory fatigue mixes with maternal guilt when social judgment tries to dictate paths or when loneliness imposes itself even in the midst of the most genuine love This book was developed because there are questions that many autistic mothers ask themselves in silence There are experiences that are not reflected in society And there are wounds that only begin to heal when you discover that other women have also felt the same and found possible paths As you read these pages you will find not only stories and guidance but also a sensitive map that points to the possible balance between being a mother and continuing to be yourself And that can make all the difference

LeSeur, 1995 LeSeur's readings of African American novels provide new insights into the work of Langston Hughes James Baldwin Toni Morrison Paule Marshall and Richard Wright among others When read as examples of the bildungsroman rather than simply as chronicles of black experiences these works reveal an even deeper significance and have a more powerful impact **Mommy Brain** Jodi Pawluski, 2023-08-19 Do you sometimes have the

feeling that your brain is going to mush and that your baby is literally sucking the life out of your neurons Don't worry you're not losing your mind In fact your brain is getting a complete makeover and focusing on new areas of learning which are essential for parenting In this book Dr Jodi Pawluski questions our relationship with motherhood and explores in an unprecedented way the fantastic universe of the maternal and parental brain Drawing on numerous scientific studies including her own neuroscience research and experience she provides insight into how your brain really changes with motherhood and why **Surviving Mexico's Dirty War** Alberto Ulloa Bornemann, 2007 This is the first major book length

memoir of a political prisoner from Mexico's dirty war of the 1970s Written with the urgency of a first person narrative it is a unique work providing an inside story of guerrilla activities and a gripping tale of imprisonment and torture at the hands of the Mexican government Alberto Ulloa Bornemann was a young idealist when he dedicated himself to clandestine resistance and to assisting Lucio Caba as the guerrilla leader of the Party of the Poor Here the author exposes readers to the day to day

activities of revolutionary activists seeking to avoid discovery by government forces After his capture Ulloa Bornemann endured disappearance into a secret military jail and later abusive conditions in three civilian prisons Although testimonios of former political prisoners from other Latin American nations have recently come into print there are very few books about Mexico s political wars and none as vivid and disturbing as this
