MacGregor, 2020-12-17

In the quarter century that followed American entry into World War II the nation's armed forces moved from the reluctant inclusion of a few segregated Negroes to their routine acceptance in a racially integrated military establishment. Nor was this change confined to military installations. By the time it was over the armed forces had redefined their traditional obligation for the welfare of their members to include a promise of equal treatment for black servicemen wherever they might be. In the name of equality of treatment and opportunity the Department of Defense began to challenge racial injustices deeply rooted in American society. For all its sweeping implications equality in the armed forces obviously had its pragmatic aspects. In one sense it was a practical answer to pressing political problems that had plagued several national administrations. In another it was the services expression of those liberalizing tendencies that were permeating American society during the era of civil rights activism. But to a considerable extent the policy of racial equality that evolved in this quarter century was also a response to the need for military efficiency. So easy did it become to demonstrate the connection between inefficiency and discrimination that even when other reasons existed military efficiency was the one most often evoked by defense officials to justify a change in racial policy.

Morris J. MacGregor Jr received the A.B. and M.A. degrees in history from the Catholic University of America. He continued his graduate studies at the Johns Hopkins University and the University of Paris on a Fulbright grant. Before joining the staff of the U.S. Army Center of Military History in 1968 he served for ten years in the Historical Division of the Joint Chiefs of Staff.

African-Americans in Defense of the Nation James T. Controvich, 2011-03-28

The role of the African American in American history has been documented but sometimes ignored by historians. This work is intended to assist researchers in locating the wealth of material that has been published. *African Americans in Defense of the Nation* builds on a long list of early bibliographies concerning the subject. This work brings together a broad spectrum of titles related to the African American participation in America's wars. It covers both the military exploits as African Americans have been involved in every American conflict since the Revolution and their participation in the homefront support in building the weapons that the armed forces used. Organized both chronologically and topically chapters cover the various conflicts from the Revolutionary War to the Post World War II era and branches of the military as well as the role of African American women in the United States military. This extensive reference work is the most comprehensive listing of African American units available. Additionally a listing of juvenile titles will assist parents and teachers in locating material.

Taps For A Jim Crow Army Christy McGuire, 2021-12-15

Many black soldiers serving in the U.S. Army during World War II hoped that they

might make permanent gains as a result of their military service and their willingness to defend their country. They were soon disabused of such illusions. Taps for a Jim Crow Army is a powerful collection of letters written by black soldiers in the 1940s to various government and nongovernment officials. The soldiers expressed their disillusionment, rage, and anguish over the discrimination and segregation they experienced in the Army. Most black troops were denied entry into army specialist schools; black officers were not allowed to command white officers; black soldiers were served poorer food and were forced to ride Jim Crow military buses into town and to sit in Jim Crow base movie theaters. In the South, German POWs could use the same latrines as white American soldiers, but blacks could not. The original foreword by Benjamin Quarles, professor emeritus of history at Morgan State University, and a new foreword by Bernard C. Nalty, the chief historian in the Office of Air Force History, offer rich insights into the world of these soldiers. *Reference Information Paper*, 2000. *Strength for the Fight*. Bernard C. Nalty, 1989. Surveys the history of blacks in the armed forces from the 1600s to the 1980s. *African Americans at War*. Jonathan Sutherland, 2003-12-05. A fascinating chronicle of the endeavors of African Americans who fought for their country; this book recounts their stories, their bravery, and their contributions. *African Americans at War* puts a human face on this neglected area of history. From pre-Revolutionary fighting against the French to cutting-edge combat against Saddam Hussein, these A-Z volumes underscore significant military contributions from African Americans. The two volumes provide comprehensive coverage of aspects including important historical figures, key battles, legislation, and rulings, honors awarded, regiments, formations, and squadrons, and significant places. Individuals portrayed include celebrated Revolutionary hero Crispus Attucks and Lieutenant Vernon J. Baker, who led his platoon in a near-suicidal attack on German positions in 1945. Often marginalized in support functions and frequently given suicidal missions, African Americans have served with distinction and honor in all U.S. conflicts. Their stories, endeavors, and bravery are now chronicled in one accessible resource. This set investigates each war, the interwar years, integration periods, and acceptance of African American men and women on the military team. This is a fascinating compendium spanning all U.S. history. **Contested Valor**. Cameron D. McCoy, 2023-11-16. *Contested Valor* is a challenging examination of the use and status of black Marines in United States military service during the Cold War era. These pioneering men experienced contested military integration as well as multiple forms of institutional and social opposition, which called their humanity, manhood, and rights to full citizenship into question. Efforts to undermine their service compromised their right to be counted among the elite and sidelined their story to the fringes of Marine Corps and U.S. history. Cameron McCoy describes the factors and pressures leading to the racial turbulence that surfaced in the Marine Corps from the end of World War II through Vietnam and the measures taken by civilian and Marine officials to maintain and restore organizational integrity based on a foundation of white supremacy. He examines the psychological effects of institutionalized racism on African American Marines during the Vietnam era and the emergence of a new generation of black men unwilling to submit to the traditions of a Jim Crow Marine Corps. By exploring the realities

American society constructed about black Marines this work calls attention to the diverse ways in which these men coped within a strict prejudiced organization and found greater purpose as U S Marines despite an embattled image Contested Valor weaves the experiences of black Americans in the armed forces into the larger tapestry of the American racist past and aptly captures the dilemmas triumphs and pitfalls that the first African American Marines encountered during the contentious eras of World War II Korea and Vietnam McCoy explores the creation of organizational policies designed to minimize their footprint as U S Marines until the social experiment of military integration faded and illustrates the discriminatory practices that further delegitimized their wartime reputation McCoy demonstrates that black Marines absence from the historical record has been compounded by the negligence and oversight of past historians as the Marine Corps reckons with its racist past and its first black Marines

Race, Racism, and Science John P. Jackson,Nadine M. Weidman,2006 Since the eighteenth century when natural historians created the idea of distinct racial categories scientific findings on race have been a double edged sword For some antiracists science holds the promise of one day providing indisputable evidence to help eradicate racism On the other hand science has been enlisted to promote racist beliefs ranging from a justification of slavery in the eighteenth century to the infamous twentieth century book The Bell Curve whose authors argued that racial differences in intelligence resulted in lower test scores for African Americans This well organized readable textbook takes the reader through a chronological account of how and why racial categories were created and how the study of race evolved in multiple academic disciplines including genetics psychology sociology and anthropology In a bibliographic essay at the conclusion of each of the book s seven sections the authors recommend primary texts that will further the reader s understanding of each topic Heavily illustrated and enlivened with sidebar biographies this text is ideal for classroom use

A Rope from Above Frank Bland,2022-11-15 The Rope symbolized death but that changed for a short moment in A Day that will live in Infamy After the Japanese attack on Pearl Harbor in Hawaii on December 7 1941 President Franklin D Roosevelt delivered The Infamy Speech before a joint session to Congress in War Declaration 125 on December 8th 1941 The

phrase a date which will live in infamy appears in the first line of Roosevelt's address. People often use Pearl Harbor Speech when referring to the speech Congress declared war on Japan an hour after Roosevelt finished his speech bringing the United States into World War II. Few American political addresses are more well known than this one widely regarded as one of the greatest ever delivered. Discover how the unexpected tragedy and impending challenge facing this nation amid the lengthy racial conflicts impacted young African American sailors before and during World War II in the Pacific and at home against the backdrop of the worst disaster in the United States 165 year history. This dreadful day claimed the lives of more than 2,400 and approximately 1,200 wounded American sailors and service members of many colors and nationalities plunging the United States into the world's most significant war. This publication is about a kid who enlisted in the Navy on July 19, 1940 fresh out of a southern segregated high school and found himself over a year later at the start of World War II for the United States. He had hopes and dreams of seeing the world while protecting his country. He was the oldest of seven children who wanted to be the example for all the others and do something great. He also wanted to escape all the babies and crying children in the house. Inspiration for this book was also found in Richard E. Miller's definitive account of African American messmen in the United States Navy from 1932 to 1943. Miller describes his work as a revisionist approach that attempts more than anything else to elevate the messmen the stereotypical victims of Navy racism to the heights of heroic adoration they deserved as American warriors but never experienced. p. vii To some extent this history honors the contributions of these Black sailors to the Navy. Richard Miller's history of African Americans in the Navy from 1932 to 1943 is a realistic study of an essential part of American history that is comprehensive, empathetic and trustworthy, quoted by Temple University's David Farber. *Breaking the Color Barrier* Robert J. Schneller, Jr., 2007-12. The African American Community's Battle to Combat the U.S. Naval Academy's Legacy of Racism. **A Companion to African American History** Alton Hornsby, Jr., 2008-04-15. A Companion to African American History is a collection of original and authoritative essays arranged thematically and topically covering a wide range of subjects from the seventeenth century to the present day. Analyzes the major sources and the most influential books and articles in the field. Includes discussions of globalization, region, migration, gender, class and social forces that make up the broad cultural fabric of African American history. *Proud Warriors* Alexander M. Bielakowski, 2021-11-15. During World War II tens of thousands of African Americans served in segregated combat units in U.S. armed forces. The majority of these units were found in the U.S. Army and African Americans served in every one of the combat arms. They found opportunities for leadership unparalleled in the rest of American society at the time. Several reached the field grade officer ranks and one officer reached the rank of brigadier general. Beyond the Army the Marine Corps refused to enlist African Americans until ordered to do so by the president in June 1942 and two African American combat units were formed and did see service during the war. While the U.S. Navy initially resisted extending the role of African American sailors beyond kitchens eventually the crew of two ships was composed exclusively of

African Americans The Coast Guard became the first service to integrate initially with two shipboard experiments and then with the integration of most of their fleet Finally the famous Tuskegee airmen are covered in the chapter on air warfare Proud Warriors makes the case that the wartime experiences of combat units such as the Tank Battalions and the Tuskegee Airmen ultimately convinced President Truman to desegregate the military without which the progress of the Civil Rights Movement might also have been delayed

Blacks in the Army Air Forces During World War II Alan M. Osur, 1977 This book is based upon a PH D dissertation written by an Air Force officer who studied at the University of Denver Currently an Associate Professor of History at the Air Force Academy Major Osur s account relates how the leadership in the War Department and the U S Army Air Forces USAAF tried to deal with the problem of race and the prejudices which were reflected in the bulk of American society It tells a story of black racial protests and riots which such attitudes and discrimination provoked The author describes many of the discriminatory actions taken against black airmen whose goal was equality of treatment and opportunities as American citizens He also describes the role of black pilots as they fought in the Mediterranean theater of operations against the Axis powers In his final chapters he examines the continuing racial frictions within the Army Air Forces which led to black servicemen protests and riots in 1945 at several installations Despite these problems the author concludes that the Army Air Forces made substantial progress in race relations and in opening up additional career opportunities for black airmen in the post 1945 period Foreword by USAF Major General John W Huston Office of Air Force History Chief
