The Earthwise Herbal, Volume II Matthew Wood, 2011-07-05. The first part in a comprehensive two-volume guide on the use of medicinal plants in Western herbal medicine from an author who has almost forty years of clinical experience. The first in a two-volume set. *The Earthwise Herbal* profiles Old World plants; volume two will treat American plants. Organized alphabetically, the book encompasses all the major and many of the secondary herbs of traditional and modern Western herbalism. Author Matthew Wood describes characteristic symptoms and conditions in which each plant has proved useful in the clinic, often illustrated with appropriate case histories. He also takes a historical view based on his extensive study of ancient and traditional herbal literature. Written in an easy, engaging, non-technical style, *The Earthwise Herbal* offers insight into the logic of the plant, how it works, in what areas of the body it works, how it has been used in the past, what its pharmacological constituents indicate about its use, and how all these different factors hang together to produce a portrait of the plant as a whole entity. Ideal for beginners, serious students, or advanced practitioners, *The Earthwise Herbal* is also useful for homeopaths and flower essence practitioners, as it bridges these fields in its treatment of herbal medicines.
