**Geoff Kennedy**

## **The Mainstream Of Western Political Thought:**

*The Mainstream of Western Political Thought* Judith Best, 1980      The Cambridge History of Medieval Political Thought C.350-c.1450 J. H. Burns, 1988 This volume examines the history of a complex and varied body of ideas over a period of more than a thousand years      Contemporary Political Thought Alan Finlayson, 2003-09 Contemporary Political Theory is a foundation textbook in political thought      The Philosophy of Charles W. Mills Mark William Westmoreland, 2024-11-29 Charles W Mills 1951 2021 was considered by many to be the most well known philosopher specializing in political philosophy and critical philosophy of race This is the first collection of essays to critically examine the key themes of Mills s philosophy across his major works The chapters in this volume engage with major themes such as the racial contract non ideal theory metaphysics of race epistemology of ignorance and corrective justice They also explore Mills s engagement with philosophical figures including Frederick Douglass W E B Du Bois Maria Lugones Immanuel Kant Karl Marx and John Rawls Furthermore the contributors seek to uncover unexplored terrain which may be illuminated by applying many of Mills s key insights The Philosophy of Charles W Mills will be of interest to scholars and advanced students working in political philosophy philosophy of race Africana philosophy and Black political thought      **Western Political Thought in Dialogue with Asia** Cary J. Nederman, Takashi Shogimen, 2008-12-16 Given the rise of globalization and coinciding increase in cultural clashes among diverse nations it has become eminently clear to scholars of political thought that there exists a critical gap in the knowledge of non Western philosophies and how Western thought has been influenced by them This gap has led to a severely diminished capacity of both state and nonstate actors to communicate effectively on a global scale The political theorists area scholars and intellectual historians gathered here by Takashi Shogimen and Cary J Nederman examine the exchange of political ideas between Europe and Asia from the Middle Ages to the early twentieth century They establish the need for comparative political thought showing that in order to fully grasp the origins and achievements of the West historians of political thought must incorporate Asian political discourse and ideas into their understanding By engaging in comparative studies this volume proves the necessity of a cross disciplinary approach in guiding the study of the global history of political thought      Morgenthau William E. Scheuerman, 2013-04-30 The ideas of Hans Morgenthau dominated the study of international politics in the United States for many decades He was the leading representative of Realist international relations theory in the last century and his work remains hugely influential in the field In this engaging and accessible new study of his work William E Scheuerman provides a comprehensive and illuminating introduction to Morgenthau s ideas and assesses their significance for political theory and international politics Scheuerman shows Morgenthau to be an uneasy Realist uncomfortable with conventional notions of Realism and sometimes unsure whether his reflections should be grouped under its rubric He was a powerful critic of the existing state system and defended the idea of a world state By highlighting Morgenthau s engagement with the leading lights of European political and legal theory

Scheuerman argues that he developed a morally demanding political ethics and an astute diagnosis of the unprecedented perils posed by nuclear weaponry. Believing that the irrationalities of US foreign policy were rooted partly in domestic factors, he sympathized with demands for radical political and social change. Scheuerman illustrates that Morgenthau's thinking has been widely misunderstood by both disciples and critics and that it offers many challenges to contemporary Realists who discount his normative aspirations. With the advent of the cosmopolitan goal of international reform, Morgenthau's work serves up an unsettling mix of sympathy and hard-headed skepticism which remains crucially important in the development of the field. Lucidly and persuasively written, this book will be a valuable resource for students and scholars seeking to understand the continued importance of Morgenthau's thinking. *21st Century Political Science: A Reference Handbook* John T Ishiyama, Marijke Breuning, 2011. Offering full coverage of major subthemes and subfields within political science, this reference handbook includes entries on topics from theory and methodology to international relations and institutions.

*Canadian Founding* Janet Ajzenstat, 2007-05-28. A new interpretation of confederation contends that the founding fathers were John Locke's disciples, champions of universal human rights and popular sovereignty. Winner John T Saywell Prize for Canadian Constitutional Legal History 2009. **Political Philosophy in the East and West** Jaan Islam, 2018-01-10. In the 21st century, amid converging global political, social, and economic forces, we are questioning the fundamental values we hold true, driven by an antagonism between different schools of political philosophy between left and right-wing politics. This book provides a comprehensive analysis of western political philosophy and underlines the core principles of each argument. It then argues that neither have we solved nor do we have any pathway to eventually solve the question of right and wrong; we are essentially moral relativists in disguise. In order to break out of this cycle of uncertainty, the book proposes a solution of knowledge-based cognition, policy based on a concrete and proven understanding of an absolute and certain body of truths. This requires an analysis and blending of non-western political philosophical traditions such as those espoused by Islam and Confucianism. This book gives an original critique of western political philosophy and is the first book to engage in a reconstruction of Islamic political philosophy. *Radicalism and Political Reform in the Islamic and Western Worlds* Kai Hafez, 2010-05-24. Over the last decade, political Islam has been denounced in the Western media and in the surrounding literature as a terrorist or fascist movement that is entirely at odds with Western democratic ideology. Kai Hafez's book overturns these arguments, contending that despite its excesses as a radical form of political opposition, the movement plays a central role in the processes of democratization and modernization and that these processes have direct parallels in the history and politics of the West. By analyzing the evolution of Christian democratization through the upheavals of the Reformation, colonisation, fascism, and totalitarianism, the book shows how radicalism and violence were constant accompaniments to political change and that these components, despite assertions to the contrary, are still part of Western political culture to this day. **A HISTORY OF POLITICAL THOUGHT** SUBRATA MUKHERJEE, SUSHILA

RAMASWAMY,2011-08-09 This lucidly written text in its second edition continues to provide a comprehensive study of the classical political tradition from Plato to Marx The book elucidates the fascinating evolution of the history of political ideas through the works of thirteen key political thinkers which includes Plato Aristotle Machiavelli Hegel and Marx The text highlights the decline and revival of classical political theory and portrays the clash of universalism vs localism in the classical tradition It focuses on the recent interpretations of the classical texts for instance feasibility of the ideal State in Plato civic humanism and republicanism in Machiavelli the radicalism of Locke and the contributions to the woman s cause by John Stuart Mill The text is intended for the undergraduate and postgraduate students of Political Science of various universities and for all those who are appearing for the civil services examinations NEW TO THIS EDITION Inclusion of two important liberal thinkers Mary Wollstonecraft the founder of liberal feminism and Immanuel Kant a de ontological liberal Addition of an Appendix on John Rawls who is credited as a seminal thinker of contemporary times having played a crucial role in the revival of normative political theory

#### **GENDER DISPARITY IN INDIA UNHEARD WHIMPERS SIULI**

SARKAR,2016-06-17 Radical ideologies revolutionary movements political upheavals legal frameworks and many such initiatives have been taken up to prove a Woman s Equality and uplift her status all over the world Though the voices raised are loud and heard but the moot question is whether the word Feminism in its true sense has been understood and implemented in the still very much patriarchal society of today The undercurrent answer to this question is echoed and retorted in this book on Gender studies Elaborating on the Indian woman this book comments on the condition of women from ancient India to the modern day India her transforming status the laws devised to protect her social taboos surmounting her and the changing social patterns that are being brought to nullify the gender differences be it at home within an office and within the society The book begins with a feminist approach to politics movements led by the feminists their treatment in literature autobiographies their contribution towards economic sectors their health education e governance and role towards environment A dedicated chapter elaborates on women in Tagore s work with original text excerpts in Bengali and their literal translations The final chapter deals with Indian women and their tryst with crime day in and out the unchanged age old laws which are in need of serious review and the role of media and society in providing them the due accreditation of being someone The book is intended for the students of Gender Studies Political Science English Sociology and Media Studies

#### **China's Belt And Road Initiative And Building The Community Of Common Destiny Linggui**

Wang,Jianglin Zhao,2019-05-09 China s Belt and Road Initiative BRI has attracted growing attention from around the world since it was first announced It is along with the Asian Infrastructure Investment Bank AIIB a critical instrument for realizing what the Chinese government calls the Community of Common Destiny CCD The core idea presented in this volume is that the CCD represents a new paradigm for promoting regional collaboration in socio economic development and plays a crucial role in reshaping the international geopolitical landscape Contributors show that the belief in common development and

common security transcends differences in cultural tradition and pre existing level of development This belief underlies the commitments among countries and regions participating in the BRI to working closely together in pursuit of shared and sustained prosperity The chapters are based on papers presented at Building the Community of Common Destiny between China and Its Neighbors Challenges and the Future an international forum co organized by the National Institute for Global Strategy of the Chinese Academy of Social Sciences and the University of International Relations China Thirty experts from more than twenty countries have contributed to this volume

**Nietzsche and the Politics of Difference** Andrea Rehberg, Ashley Woodward, 2022-10-24 The question of Nietzsche s use of political theory has a long and vexed history The contributors of this book re situate debates around the notion of difference in relation to historical and scholarly concerns but with a view to the current political context Given that today we are faced with a host of political challenges of domination and resistance the question raised in this volume is how Nietzsche helps us to think through and to address some of the problems The authors also discuss how his writings complicate our desire for swift solutions to seemingly intractable problems how to resist slavishness in thought and action how to maintain hard won civil liberties and rights in the face of encroaching hegemonic discourses practices and forces or how to counteract global environmental degradation in short how to oppose totalitarian movements of homogenization universalization equalization and instead to affirm both politically and ontologically a culture of difference

**Charles Mills' The Racial Contract** Elvira Basevich, 2025-06-30 This book features emerging and established philosophers revisiting Charles Mills The Racial Contract twenty five years after its publication Each contribution reassesses the singular book s bold critique of liberalism and social contract theory advancing and interrogating Mills s philosophical legacy Notably lines of inquiry include the ideal nonideal distinction the merits of the social contract model for normative political inquiry and the epistemology of ignorance This book was originally published as a special issue of Critical Review of International Social and Political Philosophy

**The Languages of Political Theory in Early-Modern Europe** Anthony Pagden, 1987 Essays on the political languages of natural law classical republicanism commerce and political science

*Pluralizing Political Philosophy* Ingrid Robeyns, 2025-02-04 Pluralizing Political Philosophy focuses on economic and ecological inequalities By reducing the current marginalization of a range of traditions and approaches outside liberalism which especially takes place at universities in the Global North political philosophy will have access to a richer range of theories This marginalization happens to some extent to traditions that could be understood as providing an internal critique to liberalism but happens especially to various non western political philosophies The chapters in this edited volume illustrate the wide range of perspectives that exist to analyze economic and ecological inequalities In addition to critical discussions of liberal egalitarianism and green liberalism contributing authors also offer discussions of Mori philosophy ecofeminism Confucian political philosophy an ethics of care Ubuntu philosophy Buen Vivir and hybrid approaches The different traditions and approaches not only differ in their normative commitments but also in

their ontological assumptions and methodological underpinnings The volume closes with four shorter chapters that provide meta theoretical reflections on the volume and make suggestions on how to further pluralise political philosophy This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford

Scholarship Online and offered as a free PDF download from OUP and selected open access locations

### **The Crisis of**

**Globalization** Patrick Diamond, 2018-11-29 In recent years the effects of economic openness and technological change have fuelled dissatisfaction with established political systems and led to new forms of political populism that exploit the economic and political resentment created by globalization This shift in politics was evident in the decision by UK voters to leave the European Union in June 2016 the November 2016 election of Donald Trump to the presidency of the United States as well as the rise of populist movements on left and right throughout much of Europe To many voters the economy appears to be broken Conventional politics is failing Parties of the left and centre left have struggled to forge a convincing response to this new phase of globalization in the aftermath of the 2008 crisis This book examines the challenges that the new era of globalization poses for progressive parties and movements across the world It brings together leading thinkers and experts including Andrew Gamble Jeffrey Frieden and Vivien Schmidt to debate the structural causes and political consequences of this new wave of globalization

*A Critical Appraisal of Sir Isaiah Berlin's Political Philosophy* Robert Kocis, 1989 This critical appraisal of Isaiah Berlin's thoughts on the nature of reality of humanity of values and of politics and liberty describes his views as unwaveringly modern and empiricist

Arendt Dana Villa, 2021-03-28 Hannah Arendt 1906 1975 was a philosopher and political theorist of astonishing range and originality and one of the leading thinkers of the twentieth century A former student of Martin Heidegger and Karl Jaspers she fled Nazi Germany to Paris in 1933 and subsequently escaped from Vichy France to New York in 1941 The Origins of Totalitarianism 1951 made her famous After visiting professorships at Princeton Berkeley and the University of Chicago she took up a permanent position at the New School in 1967 Renowned for The Human Condition On Revolution and The Life of the Mind she is also known for her brilliant but controversial reporting and analysis of Adolf Eichmann's 1961 trial in Jerusalem an experience that led to her to coin the phrase the banality of evil In this outstanding introduction to Arendt's thought Dana Villa begins with a helpful overview of Arendt's life and intellectual development before examining and assessing the following important topics Arendt's analysis of the nature of political evil and the arguments of The Origins of Totalitarianism political freedom and political action and the arguments of On the Human Condition especially Arendt's return to the ancient Greek polis and her critique of modernity modernity and revolution and Arendt's text On Revolution responsibility and judgment and her reporting of the Eichmann trial Arendt's view of contemplation and the fundamental faculties of mental life Arendt's rich legacy and influence including her civic republican understanding of freedom and her influence on the Frankfurt School communitarianism and democratic theory Including a chronology chapter summaries and suggestions for further reading this indispensable guide to Arendt's

philosophy will also be useful to those in related disciplines such as politics sociology history and economics
