The Mammoth Of Nostradamus And Other Prophets:

The Mammoth Book of Nostradamus and Other Prophets Damon Wilson,1999-01-01 Examining the various theories about how precog ition could work this book discusses the nature of time the possibility of contact with a spiritual world the collective unconscious and the significance of astrology It also outlines the major prophesies and the prophet Nostradamus s life and times supported by explanatory notes and historical data

The Mammoth Book of Prophecies Damon Wilson,2003 Nostradamus the most prolific and accurate of all the prophets is the primary focus of this in depth look at some of the chillingly accurate prophecies and predictions of catastrophe Here he is found alongside Mother Shipton the Brahan Seer pagan prophecy and police prophets There is a special focus on three predictions that all too alarmingly came true the sinking of the Titanic the 1967 Silver Bridge collapse in West Virginia and the events in New York on 11 September 2002 Consulting psychics is neither as far fetched nor as rare as it sounds however reluctant most of us are to admit it And public interest in prophecy and prophets increases dramatically in times of international tension In the years leading up to the Second World War in the months after the Cuban missile crisis following the first manned landing on the moon interest in prophecy was at an all time high as people look for clues to the future As indeed we are still doing today

The Mammoth Book of Nostradamus and Other Prophets Damon Wilson,1999 Explores the predictions of such seers as Nostradamus John Dee Mother Shipton Edgar Cayce and Wolf Messing while exploring the predictive powers of the I Ching the tarot palmistry and other oracles

Nostradamus and Other Prophets and Seers Jo Durden Smith,2022-08-01 The ability to see into the future and to accurately predict events has fascinated and yet frightened man for thousands of years As far back as 4000 BC the Sumerians consulted sages who would pronounce on important matters and advise on courses of action In this riveting illustrated account the predictions of the most famous sages and seers from the dawn of civilization are looked at in detail One of the best known of these visionaries was Nostradamus and indeed his prophecies in the form of the original cantos are analyzed in this book Discover the prophecies that predicted The French Revolution Pearl Harbor 9 11 The Iraq War

Nostradamus and Other Prophets and Seers examines the role of astrology alchemy and arcane knowledge in prophecy It tries to answer that age old question of whether there is such a thing as secret knowledge and whether it is possible for mere mortals to access it

The Life and Times of Nostradamus Russell Roberts,2019-12-05 Few people in history have incited such debate and further examination as the French prophet known as Nostradamus What manner of man was he Was he really able to part the mists of time and see into the future Was it possible that he could predict events and identify people separated hundreds of years from his own time Or are his predictions just vague and ambiguous enough that they can be made to fit almost any occasion Perhaps one way to find answers to these questions is to examine the entire life of this remarkable mannot just the small portion that his predictions constitute Read about the influences of his youth his training as a physician and the reasons he began making his predictions You may then have the power to better understand who and

what he actually was and the times in which he lived

Fiction and Physicians Stephen McWilliams, 2012-10-04. John Keats, Sir Arthur Conan Doyle, François Rabelais, William Somerset Maugham. All were writers of fiction, but more surprisingly, all were also medical doctors. Anton Chekhov, A.J. Cronin, Oliver St. John Gogarty, Michael Crichton, even Nostradamus. The world has seen literally dozens of them, famous writers who wielded a stethoscope as skillfully as they did a pen. So what do literature and medicine have in common? Is there something about the singular experience of being a doctor that results in a compelling desire for communication or indeed catharsis? In addition, we have seen many non-medical writers who have made fictional physicians their principal protagonists, heroes, and villains alike, so compellingly vivid they keep the pages turning: Dr. Jekyll, Doctor Zhivago, Hannibal Lecter, Doc Daneeka, Dick Diver. And of course, there are numerous examples of writers who have deftly described fictional patients struck down by illness in the key twist of a plot: Ian McEwan, Albert Camus, Sebastian Faulks, Gabriel García Márquez, Thomas Mann. In this fascinating and unique book, psychiatrist Stephen McWilliams considers the above and many more in his exploration of the
