Communist Party Karl Marx, Friedrich Engels, 2017-10-23 The Manifesto breaks down into a preface a cool little beginning and four sections In the helpful little preface Marx's co author Friedrich Engels lists all the translations and publications of the Manifesto that have come out in the forty years since its first publication Conveniently enough he says the book's spread matches the spread of the working class movement Engels also gives us the fundamental idea underlying the Manifesto political and intellectual ideas and therefore all of history are based on the economic system of the time and thus on class struggles Today Engels says the many exploited and oppressed proletariat workers can only free themselves by both overthrowing the few rich bourgeoisie capitalists and ending economic class altogether Now on to the Manifesto itself The beginning is made up of just a few short fun paragraphs telling us that communism is haunting Europe and that leaders are accusing each other of being communists but no one actually knows what communism is Enter the Manifesto to set them all straight
