Bacon, 2023-08-12 Edwin M. Bacon's Manual of Ship Subsidies: An Historical Summary of the Systems of All Nations is a comprehensive study of the various ship subsidy systems employed by nations throughout history. The book delves into the economic, political, and social implications of ship subsidies, providing a detailed analysis of their impact on the maritime industry. Bacon's literary style is scholarly and informative, making this book a valuable resource for anyone interested in maritime economics or international trade relations. The historical context provided by Bacon offers readers a deep understanding of the evolution of ship subsidies and their significance in global shipping. With meticulous research and thorough examination, Bacon presents a nuanced view of the complexities surrounding government support for shipbuilding and shipping operations. This book is a must-read for academics, policymakers, and industry professionals seeking a deeper insight into the world of maritime subsidies.
