*The Marine Ecology of Birds in the Ross Sea, Antarctica* David G. Ainley, Robert J. Boekelheide, Edmund F. O'Connor, 1984  
**Antarctic Journal of the United States**, 1986      Seabirds J. P. Croxall, 1987-05-14 Originally published in 1986 this book is concerned with the ways in which seabirds function as predators in the marine environment in particular about how they find and catch food and how much of it they consume It reviews both the feeding ecology of seabirds including adaptations for flight and diving and also most of the leading field studies in polar temperate and tropical regions that have quantitatively examined the interactions of seabird communities with their prey      **Ornithology of Sabah** Frederick Halsey Sheldon, Robert G. Moyle, Jody Kennard, 2001      Biology of the Vestfold Hills, Antarctica J.M. Ferris, H.R. Burton, G.W. Johnstone, I.A.E. Bayly, 2012-12-06 The present volume was conceived as a companion to Antarctic Oasis Terrestrial environments and history of the Vestfold Hills edited by J Pickard and published in 1986 by Academic Press Sydney Pickard's book contains accounts of the Vestfold Hills climate N A Streten and recent geomorphological history D A Adamson J Pickard which provide a valuable context for understanding their present day biology Pickard also gives a history of human discovery and occupation of the Vestfold Hills There is some overlap in the coverage to the extent that both this volume and Pickard's book describe the terrestrial flora and fauna The reader specifically interested in the terrestrial ecosystems of the Vestfold Hills should draw from both sources Together these works present a broad and descriptive account of the largest truly coastal antarctic oasis a region that holds a unique variety of opportunities for future scientific investigation There are several tasks I wish to accomplish here apart from expressing my sincere thanks to the many people who have contributed to the completion of this volume I wish to briefly introduce the Vestfolds and to list some of the features that in my opinion make them biologically varied and unique in the context of other coastal ice free areas I wish to describe the phases of biological research in this region including the directions that have been pursued since the 1984 symposium and to comment upon the future of the Vestfold Hills      Current Topics in Avian Disease Research Rosemary K. Barraclough, 2006  
*Management of Cowbirds and Their Hosts* Catherine P. Ortega, Jameson Fales Chace, Brian D.
