levels of planetary reality routine cooperation of extraterrestrial colleagues lots of angels Ascended Masters and even a guest consultation with the Chief Architect of All Reality The result is a concentrated detective hunt across time and space to find that stolen mathematics The quest for the stolen arithmetic takes the team to sites in Bolivia Canada Japan and Iceland and back to the planet s earliest days and other key moments in its geomantic life as they probe the engineering intricacies that comprise the Earth s esoteric reality An awful lot is at stake namely the fate of five related planets across this and other galaxies because they re directly tied into the Earth and they need those numbers back too
