The Informant A True Story:

The Informant Kurt Eichenwald, 2001-07-03 From an award winning New York Times investigative reporter comes a gripping account of one of the most captivating and bizarre tales in the history of the FBI and corporate America It was one of the FBI's biggest secrets Mark Whitacre a senior executive at Archer Daniels Midland America's most politically powerful corporation became a confidential government witness Putting his career and family at risk Whitacre along with a small team of agents tapped into secrets at ADM that led the FBI to discover the company's scheme to steal millions of dollars from its own customers But as the FBI and federal prosecutors closed in on ADM they suddenly found that everything was not all that it appeared While Whitacre was cooperating with the Feds and playing the role of loyal company man he also had his own agenda Whitacre became sucked into his own world of James Bond antics imperiling the criminal case and creating a web of deceit that left the FBI and prosecutors uncertain where the lies stopped and the truth began Meticulously researched and richly told The Informant re-creates the drama of the story beginning with the secret recordings stakeouts and interviews with suspects and witnesses to the power struggles within ADM and its board including the high profile chairman Dwayne Andreas F Ross Johnson and Brian Mulroney to the big gun Washington lawyers hired by ADM and on up through the ranks of the Justice Department to FBI Director Louis Freeh and Attorney General Janet Reno A page turning real life thriller that features deadpan FBI agents crooked executives idealistic lawyers and shady witnesses with an addiction to intrigue The Informant tells an important and compelling story of power and betrayal in America

Fishers of Men - The Gripping True Story of a British Undercover Agent in Northern Ireland Rob Lewis, 2017-09-07 Fishers of Men is the true account of secret operations in Northern Ireland carried out by the British Army's most clandestine unit It tells the unique story through Rob Lewis's own extraordinary experiences of an essential instrument in the fight against terrorism that of covert intelligence gathering The men and women who work in this field are a special breed who undertake hazardous risks with unflinching tenacity and professionalism the price of negligence is high and the need for secrecy must be preserved even at the expense of personal relationships The sheer determination and single mindedness required to achieve selection to this secret world is graphically described as well as how against seemingly impossible odds the operators of the FRU managed to persuade terrorists and their close associates to turn informer The methods the unit used to target recruit and handle their contacts how they protected their informants and the terrifying life their agents led are all told by an agent handler using many of his cases to illustrate the sharpness intelligence and sense of humour essential to the job Fishers of Men fills a gap in the available information about the secret war against terrorism in Northern Ireland It is a gap that has so far remained largely unexplored until Rob Lewis's informative and explosive book
