Cultivating Inner Radiance and the Body of Immortality Robert Powell,2012 In the beginning was the Word and the Word was with God and nothing that was made was made without the Word The human being is an expression of the ever unfolding wisdom of the creative Logos the Word The whole of creation bears the imprint of the cosmic sounding This book describes a way through movement and gesture to work with the creative sounding principle that manifests in the Earth's enveloping life sphere Today the increasingly binding and hardening conditions of modern life now threatens the divine seed of life here on Earth which has been fructified and developed over the millennia Creation coming to expression through the

flowering of the cosmic breath is losing its natural connection with humanity and with Mother Earth which are increasingly given over to anti life forces comprising destruction inversions and lifeless replicas of creation's gifts. The sacred movements described in this book arise from the modern art of movement known as eurythmy, Greek for good movement, which came into the world in 1912. These sacred gestures, when practiced with the words gifted to humanity by the incarnated Logos two thousand years ago, lead us back to our connection with the fullness of creation and toward the goal of developing the body of immortality, the resurrection body. In 2012 we celebrate the one hundredth anniversary of the birth of eurythmy. This book invites us to partake of the richness of the sacred through life-enhancing movement and gesture as a path to reconnect with the cosmic formative forces that sound the call of resurrection. The wealth of material included in this book educates the soul toward awakening to a conscious understanding of humanity's divine heritage and true calling. The exercises in this work provide a training that ennobles and refines the qualities of the human soul. By awakening, the soul gradually learns to respond to the call of the World Soul that invites us to partake of divine wisdom and to participate through right action in creation's unfolding toward the ultimate goal, resurrection.

The Nyingma School of Tibetan Buddhism Dudjom, 2012-07-23. Written by a great modern Nyingma master, Dudjom Rinpoche's *The Nyingma School of Tibetan Buddhism* covers in detail and depth both the fundamental teachings and the history of Tibetan Buddhism's oldest school. This, the first English translation of His Holiness' masterwork, constitutes the most complete work of its type in the West. An absolute treasure for students of the tradition, it is also an indispensable reference for anyone with an interest in Buddhism. The book includes chronologies and glossaries that elucidate Buddhist doctrine and it provides fascinating insights into the Buddhist history of Tibet. Two treatises from the present volume, namely *The Fundamentals of the Nyingma School* and *The History of the Nyingma School*, among the most widely read of all His Holiness' Dudjom Rinpoche's works, were composed during the years immediately following his arrival in India as a refugee. His intention in writing them was to preserve the precise structure of the Nyingma philosophical view within its own historical and cultural context. This is the first time this text has been available in a trade edition. Beautifully presented, this single volume edition represents a truly wonderful gift and features illustrations in black and white and in color, plus maps, bibliographic information, and useful annotations.
