**The Intelligent Woman's Guide to Socialism and Capitalism** Bernard Shaw, I have never been in America therefore I am free from the delusion commonly entertained by the people who happen to have been born there that they know all about it and that America is their country in the same sense that Ireland is my country by birth and England my country by adoption and conquest You dear madam are an American in the sense that I am a European except that the American States have a language in common and are federated and the European states are still on the tower of Babel and are separated by tariff fortifications When I hear people asking why America does not join the League of Nations I have to point out to them that America is a League of Nations and sealed the covenant of her solidity as such by her blood more than sixty years ago whereas the affair at Geneva is not a League of Nations at all but only a so far unsuccessful attempt to coax Europe to form one at the suggestion of a late American President with the result that the British Secretary of State for Foreign Affairs makes occasional trips to Geneva and on returning reassures the British House of Commons by declaring that in spite of all Woodrow Wilsonic temptations to combine with other nations he remains an Englishman first last and all the time that the British Empire comes before everything with him and that it is on this understanding and this alone that he consents to discuss with foreigners any little matters in which he can oblige them without detriment to the said reserved interests And this attitude seems to us in England so natural so obvious so completely a matter of course that the newspapers discuss the details of Mr Chamberlain's report of his trip without a word about the patriotic exordium which reduces England's membership of the League to absurdity Now your disadvantage in belonging to a league of nations instead of to a nation is that if you belong to New York or Massachusetts and know anything beyond the two mile radius of which you are the centre you probably know much more

of England France and Italy than you do of Texas or Arizona though you are expected as an American to know all about America Yet I never met an American who knew anything about America except the bits she had actually set eyes on or felt with her boots and even of that she could hardly see the wood for the trees By comparison I may be said to know almost all about America I am far enough off to get a good general view and never having assumed as the natives do that a knowledge of America is my intuitional birthright I have made enquiries read books availed myself of the fact that I seem to be personally an irresistible magnet for every wandering American and even gathered something from the recklessly confidential letters which every American lady who has done anything unconventional feels obliged to write me as a testimony to the ruinous efficacy of my books and plays I could and should have drawn all the instances in this book from American life were it not that America is such a fool s paradise that no American would have believed a word of them and I should have been held up in exact proportion to my accuracy and actuality as a grossly ignorant and prejudiced Britisher defaming the happy West as ludicrously as the capitalist West defames Russia What I tell you of England you will believe What I could tell you of America might provoke you to call on me with a gun Also it would lead you to class me as a bitter enemy to America whereas I assure you that though I do not adore your country with the passion professed by English visitors at public banquets when you have overwhelmed them with your reckless hospitality I give it a good deal of my best attention as a very interesting if still very doubtful experiment in civilization

**Legal Literature Survey** Michael Owen Shannon,1977 **The New York Times Book Review** ,1970 *The Smart Woman's Guide to Property Law* Carla Spivack,2020-04-08 The income gap between women and men has gotten lots of attention in the last few decades today women earn seventy nine cents for every dollar men earn But fewer people are aware of the much more serious wealth gap for every dollar in wealth men own women own thirty two cents Thirty two cents Wealth matters Wealth is what gives us a financial safety net when we lose our jobs break up a relationship or divorce we or our dependents become sick or when we are hit by some other financial crisis It enables us to build security to give our children a future and to retire It is passed from generation to generation allowing wealthy families to stay wealthy over time Wealth can generate income whether through investments in the financial markets or real estate or through funding a startup business and more Significant wealth even allows us to influence our world by allowing us to contribute to political campaigns and policy initiatives For these reasons wealth is a better indicator of financial status than income it reveals who is secure and influential and who is not By treating women and men equally without recognizing the gross social and economic advantages that differentiate us the law perpetuates the wealth gap Here Carla Spivack takes readers through a tour of a woman s life stages and the property laws that may apply and hinder their financial independence From living together to marriage from divorce to inheritance the circumstances invite unfair treatment that leaves women out in the cold Understanding how to protect your assets fight for what is fair and increase financial security is increasingly important as the wage gap continues to flourish Readers will learn

about the laws that work against them and how to protect themselves regardless of their relationship status For all women of all ages here is your guide to keeping your wealth not matter how your relationship fares **The Midlife Woman's Guide to Thriving** Dr I Pearson,2025-02-15 We re told that our midlife is about slowing down settling in or quietly fading into the background but that s not how it should be Midlife isn t the end of anything it s the beginning of something powerful when we finally get to put ourselves first not because everything is falling apart but because we ve earned it Your body is changing your priorities are shifting This is my guide to thriving not just getting through midlife but embracing it I ll talk about our confidence joy beauty self care relationships reinvention and stepping into this next chapter with excitement not fear You re not here to shrink You re here to shine And midlife is the perfect time to do it **Hearings** United States.
