studies on the Catholic Church in Hong Kong of a comprehensive nature are rare in comparison with other religions. The reasons of this may include the complicated organizational structure of the Catholic Church and the multiple languages used in the archival documents such as Latin, French, Italian, and Portuguese. As a Catholic clergy, the author of this book, Fr. Louis Ha, is knowledgeable about the internal operation of the Church. He is also familiar with many European languages which help him master the original records and guarantee the credible result of his research. The contents of this book are based on the large number of documents provided by the Hong Kong Diocesan Archives Office, by archives in the Vatican, and in various religious orders in Europe. As an objective and impartial historian, Fr. Louis Ha honestly pointed out the power struggle in the Church, the confrontation with the government, the competition between Chinese and foreign clerics. In fact, a candid description of the Catholic Church in Hong Kong is shown in front of the readers. Definitely, it is a precious reference book for the study of the local society, religion, education, and charitable work in early Hong Kong.

Han-Mongol Encounters and Missionary Endeavors Patrick Taveirne, 2004. American Missionaries in China Clayton H. Chu, 1960. **Taking Christianity to China** Wayne Flynt, Gerald W. Berkley, 1997-01-30. Beginning early in the 19th century, the American missionary movement made slow headway in China. Alabamians became part of that small beachhead. After 1900, both the money and personnel rapidly expanded, peaking in the early 1920s. By the 1930s, many American denominations became confused and divided over the appropriateness of the missionary endeavor. Secular American intellectuals began to criticize missionaries as meddling do-gooders trying to impose American Evangelicalism on a proud ancient culture. By examining the lives of 47 Alabama missionaries who served in China between 1850 and 1950, Flynt and Berkley reach a different conclusion. Although Alabama missionaries initially fit the negative description of Americans trying to superimpose their own values and beliefs on heathen, they quickly learned to respect Chinese civilization. The result was a new synthesis, neither entirely southern nor entirely Chinese. Although previous works focus on the failure of Christianity to change China, this book focuses on the degree to which their service in China changed Alabama missionaries. And the change was profound. In their consideration of 47 missionaries from a single state, their call to missions, preparation for service in China, living working contacts back home, cultural clashes, political views, internal conflicts, and gender relations, the authors suggest that the efforts by Baptist, Methodist, and Presbyterian missionaries from Alabama were not the failure judged by many historians. In fact, the seeds sown in the hundred years before the Communist revolution in 1950 seem to be reaping a rich harvest in the declining years of the 20th century when the number of Chinese Christians is estimated by some to be as high as one hundred million.

The Futility of Law and Development Jedidiah J. Kroncke, 2016-01-18 Drawing in historical threads from religious legal and foreign policy work The Futility of Law and Development demonstrates how American comparative law ultimately became a marginalized practice in this process The marginalization belies its central place in earlier eras of American political and legal reform In doing so the book reveals how the cosmopolitan dynamism so prevalent at the Founding is a lost virtue that today comprises a serious challenge to American legal culture and its capacity for legal innovation in the face of an increasingly competitive and multi polar 21st century Once again America's relationship with China presents a critical opportunity to recapture this lost virtue and stimulate the searching cosmopolitanism that helped forge the original foundations of American democracy
