Jesse, Kristen P. Williams, 2010-02-09 As ethnic groups clash the international community faces the challenge of understanding the multiple causes of violence and formulating solutions that will bring about peace Allowing for greater insight Jesse and Williams bridge two sub fields of political science in Ethnic Conflict international relations and comparative politics They systematically apply a levels of analysis framework looking at the individual domestic and international contexts to better explore and understand its complexity Five case study chapters apply the book s framework to disputes around the world and include coverage of Bosnia the Israeli Palestinian conflict Northern Ireland Sri Lanka and Sudan Never losing sight of their analytical framework the authors provide richly detailed case studies that help students understand both the unique and shared causes of each conflict Students will appreciate the book s logical presentation and excellent pedagogical features including detailed maps that show political demographic and cultural data

Ethnic Bargaining Erin K. Jenne, 2014-05-29 In Ethnic Bargaining Erin K Jenne introduces a theory of minority politics that blends comparative analysis and field research in the postcommunist countries of East Central Europe with insights from rational choice Jenne finds that claims by ethnic minorities have become more frequent since 1945 even though nation states have been on the whole more responsive to groups than in earlier periods Minorities that perceive an increase in their bargaining power will tend to radicalize their demands she argues from affirmative action to regional autonomy to secession in an effort to attract ever greater concessions from the central government The language of self determination and minority rights originally adopted by the Great Powers to redraw boundaries after World War I was later used to facilitate the process of decolonization Jenne believes that in the 1960s various ethnic minorities began to use the same discourse to pressure

national governments into transfer payments and power sharing arrangements Violence against minorities was actually in some cases fueled by this politicization of ethnic difference Jenne uses a rationalist theory of bargaining to examine the dynamics of ethnic cleavage in the cases of the Sudeten Germans in interwar Czechoslovakia Slovaks and Moravians in postcommunist Czechoslovakia the Hungarians in Romania Slovakia and Vojvodina and the Albanians in Kosovo Throughout Ethnic Bargaining she challenges the conventional wisdom that partisan intervention is an effective mechanism for protecting minorities and preventing or resolving internal conflict

*The Internationalization of Internal Conflicts* Amy L. Freedman, 2016-04-29 Internal security crises from environmental disaster extreme poverty and deprivation armed conflicts or ethnic or religious conflict provide sites of opportunity for those seeking to internationalize conflicts Domestic conflicts in Africa the Middle East and Southeast Asia have started as internal problems but have taken on regional and international dimensions as parties to the conflict within the country and sympathetic external forces have joined forces with each other for mutual gain This book examines the international dimension to internal conflicts and asks under what conditions do domestic conflicts become opportunities for regional or global actors to become involved Why have some countries been able to successfully deal with this problem while others have not Who are the actors who seek to internationalize conflicts Why and with what means do they become involved and how do their agendas get internalized localized Cases include the separatist movements in the Philippines Southern Thailand Aceh Indonesia and the civil wars in Rwanda Congo and Sierra Leone Liberia Lebanon and Iraq This book finds that a combination of greater democratization internally coupled with constructive outside mediation efforts can produce conditions necessary to prevent conflicts from
