The Lupus Kid And Other Stories:

The Lupus Kid and Other Stories Robert Wendell, 2002-05-14 The Lupus Kid and Other Stories For a year Bob Wendell recorded the path his life took through illness and despair He was alive and grateful for that much But the turn his relationship would take and the downfall of those around him made Wendell question the very meaning of his existence Set under the gray skies of the Pacific Northwest The Lupus Kid and Other Stories gives more than insight into life with chronic illness it provides a glimpse into the human condition and the struggle to maintain dignity and hope And that while hope doesn't come easily it is sometimes found in the most unlikely places But tomorrow comes and even as agonizingly slowly as the days pass they nonetheless do And whether you're having the time of your life or the hell of your life they pass in a collective whole and are gone irretrievably so From The Lupus Kid and Other Stories

Making-Up People: Youth, Truth and Politics Judith Bessant, 2020-12-30. This book is about modern politics and young people. Judith Bessant revises some long standing myths about children and young people's politics. She highlights the huge gap between the many ways young people and politics are talked about and how they have long been politically active. Bessant draws on a relational historical sociology to show how since the nineteenth century certain historical dynamics, political interests and social imaginaries have enabled social scientists, writers, political leaders and policymakers to imagine and make up different kinds of young people. Given these representations of childhood, adolescence and youth, everyone knows that young people are cognitively immature, inexperienced, morally under developed and lack good judgement. For these reasons, they cannot possibly be allowed to engage in the serious grown up business of politics. Yet in just one of the many contradictions, young people are criticised by many of their elders for being politically apathetic and disengaged from politics. Many think recent global warming movements, largely led by quite young people, are a novel phenomenon. Yet young people have been at the forefront of political movements of all kinds since the French Revolution. Since the 1960s, children and young people increasingly played a major if sometimes obscured role in civil rights, anti war, anti globalisation, anti austerity and global warming movements. This accessible book is rich in theoretical and historical insight that is sure to appeal to sociologists, historians, youth studies scholars and political scientists as well as to the general reader.

Topologies of the Classical World in Children's Fiction Claudia Nelson,Anne Morey,2019-10-24 Beginning with Rudyard Kipling and Edith Nesbit and concluding with best selling series still ongoing at the time of writing this volume examines works of twentieth and twenty first century children s literature that incorporate character types settings and narratives derived from the Greco Roman past Drawing on a cognitive poetics approach to reception studies it argues that authors typically employ a limited and powerful set of spatial metaphors palimpsest map and fractal to organize the classical past for preteen and adolescent readers Palimpsest texts see the past as a collection of strata in which each new era forms a layer superimposed upon a foundation laid earlier map texts use the metaphor of the mappable journey to represent a protagonist s process of maturing while gaining knowledge of the self and or the world fractal texts in which small parts of the narrative are thematically identical to the whole present the past in a way that implies that history is infinitely repeatable While a given text may embrace multiple metaphors in presenting the past associations between dominant metaphors genre and outlook emerge from the case studies examined in each chapter revealing remarkable thematic continuities in how the past is represented and how agency is attributed to protagonists each

model it is suggested uses the classical past to urge and thus perhaps to develop a particular approach to life **The**
