Turner, 2024-10-28 This book is about the archaeology of science or what can be learnt from the systematic examination of the artefacts made by precision craftsmen for the study of the natural world An international authority on historical scientific instruments Gerard Turner has collected here his essays on European astrolabes and related topics By 1600 the astrolabe had nearly ceased to be made and used in the West and before that date there was little of the source material for the study of instruments that exists for more modern times It is necessary to read the instruments themselves and astrolabes in particular are rich in all sorts of information mathematical astronomical metallurgical in addition to what they can reveal about craftsmanship the existence of workshops and economic and social conditions There is a strong forensic element in instrument research and Gerard Turner s achievements include the identification of three astrolabes made by Gerard Mercator all of whose instruments were thought to have been destroyed Other essays deal with the discovery of an important late 16th century Florentine workshop and of a group of mid 15th century German astrolabes linked to Regiomontanus *The Madonna of the Astrolabe* J. I. M. Stewart, 2012-11-15 Professor Sanctuary favours the immediate launching of an appeal And so it begins In J I M Stewart s superbly melding of wit mystery observation and literary prowess a gripping novel develops that will enthrall the reader A surveyor s report is alarming and the Governing Body is awed by the dimensions of the crisis **The Bridge at Arta** J.I.M. war period But what are its characteristic themes What are its prejudices And what does it take for granted Originally published in 1990 this is the first study to connect literary historical and sociological aspects of modern British universities It shows that the culture celebrated in British university fiction represents a particular view of humane education which has its origins in the values of Oxbridge Threats are seen to come from the redbrick and new universities from proletarians scientists including sociologists women and foreigners This exhilarating book makes a nonsense of sociology s reputation for turgid and plodding analysis Sharp witted shrewd and penetrating it will be of interest to students of sociology literature and for the same wide audience that appears to have an insatiable appetite for stories about university life **The University of Oxford** G.R. Stewart,2011-12-11 Mungo notices the interest shown by the Cardowers in a Scots boy of uncertain parentage The story takes on an obvious twist with the usual suspicions and uncertainties lawyers being called in and general acrimony but the final crisis and confrontation is of a surprising nature and an unusual explanation unfolds **Catalog of Copyright Entries.
