Ojwando Abuor, 1971      *The Saturday Review of Politics, Literature, Science and Art* ,1860      Anti-Leftist Politics in Modern World History Philip B. Minehan, 2021-11-04

Systemic and political hostility against the left real and contrived has been a key yet under recognized aspect of the history of the modern world for the past two hundred years By the 1820s the new exploitative and destabilizing character of capitalist industrial production and its accompanying market liberalizations began creating necessities among the working classes and their allies for the new self protective politics of socialism But it is evident that for the new economic system to sustain itself such oppositional politics that it necessitated had to be undermined if not destroyed by whatever means necessary Through the imperialism of the later 19th century and with significant variations this complex and often highly destructive dialectical syndrome expanded worldwide Liberals conservatives extreme nationalists fascists racists and others have all repeatedly come aggressively and violently into play against socialist oppositions In this book Philip Minehan traces the patterns of such hostility and presents numerous crucial examples of it from Britain France Germany and the United States the British in India European fascism the United States and Britain as they operated in China and Indochina from Kenya Algeria and Iran and from Central and South America during the Cold War In the final chapters Minehan addresses the post Cold War US led triumphalist wars in the Middle East the ensuing refugee crises neo fascism and anti environmentalist politics to show the ways that the syndrome within which anti leftist antagonism emerges in its neoliberal phase since the 1970s remains as self destructive and dangerous as ever

**Politics Out of History** Wendy Brown, 2001-08-26 What happens to left and liberal political orientations when faith in progress is broken when both the sovereign individual and sovereign states seem tenuous when desire seems as likely to seek punishment as freedom when all political conviction is revealed as contingent and subjective Politics Out of History is animated by the question of how we navigate the contemporary political landscape when the traditional compass points of modernity have all but disappeared Wendy Brown diagnoses a range of contemporary political tendencies from moralistic high handedness to low lying political despair in politics from the difficulty of formulating political alternatives to reproaches against theory in intellectual life as the consequence of this disorientation Politics Out of History also presents a provocative argument for a new approach to thinking about history one that forsakes the idea that history has a purpose and treats it instead as a way of illuminating openings in the present by for example identifying the haunting and constraining effects of past injustices unresolved Brown also argues for a revitalized relationship between intellectual and political life one that cultivates the

autonomy of each while promoting their interlocutory potential This book will be essential reading for all who find the trajectories of contemporary liberal democracies bewildering and are willing to engage readings of a range of thinkers Freud Marx Nietzsche Spinoza Benjamin Derrida to rethink democratic possibility in our time **Saturday Review of Politics, Literature, Science and Art** ,1864 David Hume's Political Economy Margaret Schabas,Carl Wennerlind,2008 This collection of twelve new essays by distinguished scholars in the fields of history and the philosophy of economics is one of the first book length studies of Hume s political economy **A Complete System of Modern Geography; or, the Natural and political history of the present state of the world.
