during the Great Depression In Heritage and Hoop Skirts How Natchez Created the Old South author Paul Hardin Kapp
reveals how the women of the Natchez Garden Club saved their city created one of the first cultural tourism economies in the
United States changed the Mississippi landscape through historic preservation and fashioned elements of the Lost Cause into
an industry Beginning with the first Natchez Spring Pilgrimage of Antebellum Homes in 1932 such women as Katherine

Grafton Miller Roane Fleming Byrnes and Edith Wyatt Moore challenged the notion that smokestack industries were key to Natchez's prosperity These women developed a narrative of graceful living and aristocratic gentlepeople centered on grand but decaying mansions In crafting this pageantry they created a tourism magnet based on the antebellum architecture of Natchez Through their determination and political guile they enlisted New Deal programs such as the WPA Writers Project and the Historic American Buildings Survey to promote their version of the city Their work did save numerous historic buildings and employed both white and African American workers during the Depression Still the transformation of Natchez into a tourist draw came at a racial cost and further marginalized African American Natchezians By attending to the history of preservation in Natchez Kapp draws on a rich archive of images architectural documents and popular culture to explore how meaning is assigned to place and how meaning evolves over time In showing how and why the Natchez buildings of the Old South were first preserved commercialized and transformed into a brand this volume makes a much needed contribution to ongoing debates over the meaning attached to cultural patrimony Steven Brooke - Architectural Photography and Composition Steven Brooke, 2020-04-22 A complete guide to the history practice and techniques of depicting architecture interiors and landscape and the applications for digital photography With over 300 illustrations and workflows this book is the most complete guide to architectural photography ever produced The author Steven Brooke is an internationally recognized leader in the field of architectural photography He is the photographer of over 40 books on architecture on the faculty of the University of Miami School of Architecture and winner of the Rome Prize from the American Academy in Rome and the National American Institute of Architects Honor Award in Photography Architectural Photography and Composition Steven Brooke, 2020-04-15 A complete guide to the history practice and techniques of depicting architecture interiors and landscape and the applications for digital photography With over 300 illustrations and workflows this book is the most complete guide to architectural photography ever produced The author Steven Brooke is an internationally recognized leader in the field of architectural photography He is the photographer of over 40 books on architecture on the faculty of the University of Miami School of Architecture and winner of the Rome Prize from the American Academy in Rome and the National American Institute of Architects Honor Award in Photography The Majesty of St. Augustine Steven Brooke, 2005 This architectural tour of St Augustine is filled with the history of the city embodied by buildings that for centuries were used as schools like the Genoply School House gracious family homes including the Pena Peck house and stately houses of worship such as the Basilica Cathedral built in the 1790s Louisiana Architecture, 1714-1820 Fred Daspit, 2004 Louisiana Architecture 1714 1820 examines major and minor architectural structures throughout Louisiana Mississippi from Port Gibson to the Gulf Coast and several French settlements in the Upper Mississippi Valley Organized chronologically it begins with aboriginal structures and continues onto early constructions built by the French in Louisiana It advances to discuss the founding of New Orleans in 1720 and ends with structures in Baton Rouge A glossary maps of the
